The Insurance Companies.

CHICAGO, October 13.—The loss of the Commerce Insurance Company of Albany is about $450,000. This company has been placed in the hands of a receiver by its officers, but claims that it will pay every dollar, and that new stock will be at once subscribed to proceed with their business.

J. D. Jones, President of the Atlantic Insurance Company of New York, telegraphed to their agent here to issue marine risks on any vessel loaded with grain or produce for New York on policies not to exceed $50,000 in any one vessel.

ELEVATORS BURNED.

The following is a correct list of the elevators burned: Munger & Armours, Galena (Illinois) Central, A. Hiram Wheeler's, National, and Vincart, Nelson & Co. The following are standing and unharmed: Illinois Central, B. Flint & Thompson's, the two belonging to Mann & Scott, the two owned by Armour, Dale & Co., the old Iowa and Illinois River.

GRAIN DESTROYED.

The total amount of grain destroyed in the five elevators burned, is over 1,600 000 bushels. The amount in store in the remaining elevators is about 5,000,000 bushels.

MEETING OF SUPERVISORS.

The supervisors of this county, met today and unanimously passed a resolution to rebuild the court house at once.

A SUGGESTION.

The *Tribune* this morning, discussing the "Visionary Schemes" which are proposed from all quarters, says there is one way in which the Government may do a substantial benefit. The Government must have public offices here in the Custom House, Postoffice, Court House, etc; also in the bonded warehouses. These are absolutely and immediately necessary. Let Congress provide for these to be of the most liberal dimensions and best class. If Congress will appropriate one or two millions of dollars to begin this work at once, and order their construction, it will do more to restore confidence and stimulate private enterprise than any impracticable attempts to loan public money to back up the stockholders in the insurance companies. The fact that Congress had voted five millions to build the necessary Government buildings would be the best tidings to the unemployed labor of the city.

THE NEWSPAPERS.

There were eighty-nine newspaper establishments destroyed in the burnt districts, embracing dailies and monthlies.

THANKS.

This afternoon, in the *Post*, Mr. Eastman addressed his clerks in a body. He said it was his grateful duty to thank them for their pefect fidelity in time of a calamity.

THE POSTOFFICE.

The Postmaster General promptly telegraphed words of sympathy with the postoffice and people, and also clothed the postmaster with requisite authority and directions looking to re-establishing the office.

FOUL PLAY SUSPECTED.

A rumor prevails, and is by some believed, that Henry Jullman, the banker, was murdered, instead of having been suffocated by fire. His body was found near his banking house, which he had evidently just left with his money and valuables in his arms.

THE RELIEF FUND.

There has been some unpleasantness for a day or two in regard to the management of the contributions, relief funds, etc. New meetings of the committee's from Cincinnati, Louisville, St. Louis, Indianapolis and other cities, have been held during yesterday and to-day, in which there has been considerable plain talk. They finally resolved, not to have their purpose misunderstood, to secure the assurance that these contributions hereafter should be properly disposed of. The object has been to leave the funds in the control of the Mayor and of citizens known to the country at large for ability and integrity. To meet this view, a thorough organization was effected this afternoon, consisting of the old established society, the Chicago Relief and Aid Society, assisted by prominent citizens. All bills are to be audited by the Executive Committee of that society, consisting of seven well known citizens and the Controller and R. B. Mason, Mayor. All checks are to be signed both by the relief society and the Mayor.

The following notice is issued by the society: In the great destruction that overwhelmed us, we needed a little time to perfect an organization. This, we can now say with great confidence, has been accomplished. This organization makes the following suggestion to the people elsewhere. So far as practicable, we suggest that money be remitted; as with this we can buy the articles which from time to time we most need. All funds collected elsewhere should be remitted, directed or held subject to the order of the Chicago Relief and Aid Society. The funds already deposited in other cities will be drawn upon orders or drafts of the Chicago Relief and Aid Society Committee, signed by R. B. Mason. All materials should be consigned to the Chicago Relief and Aid Society at Chicago, great care being taken to mark the contents in the package, and send invoices promptly by mail. Send cooked or perishable food only upon special advice from our society. Signed by R. B. Mason, Mayor; Henry W. King, President of Chicago Relief and Aid Society; and West Dexter, Chairman of Executive Committee.

In this connection the Mayor issues the following proclamation:

I have deemed it best for the interests of this city to turn over to the Chicago Relief and Aid Society all contributions for the suffering people of this city. This society is an incorporated and old established organization, having possessed for many years the entire confidence of our community, and it is familiar with the work to be done. The regular force of this society is inadequate to this work, but they will rapidly enlarge and extend the same by adding prominent citizens to the respective committees, and I call upon all citizens to aid this organization in every possible way. I also confer upon them the continuance of the power heretofore exercised by the Citizens' Committee to impress teams and labor, and procure quarters, so far as may be necessary for the transportation and distribution of contributions, and the care of the sick and disabled. General Sheridan desires this arrangement, and has promised to co-operate with this Association. It will be seen from the plan of work that is detailed below that every precaution has been taken in regard to the disposition of contributions.

R. B. MASON,
Mayor.

District committees are appointed as follows: On receiving, storing and assorting supplies, and dealing out upon requisitions from other committees, Murray Nilson, chairman, aided by Gen. Hardee; committee on shelter, F. M. Avery, chairman; committee on employment; N. K. Fairbanks, chairman; committee on transportation and to procure passes for the destitute and freight accommodation, Geo. M. Pullman, chairman; committee on reception and correspondence, Wirt Dexter, chairman; committee on distribution of food, clothing and fuel, O. C. Gibbs, chairman; committee on sick, sanitary and hospital measures, Dr. H. A. Johnson, chairman.

PROCLAMATION BY THE MAYOR.

The following proclamation has just been furnished to the Associated Press: The Mayor of Chicago is happy to be able to announce that the city remains quiet and peaceable. There is no lawlessness, incendiarism or riotous conduct. Order reigns supreme, and life and property are as secure as before the burning of the city. The city government in all its departments is now in full and complete operation. None of our inhabitants are without shelter of some kind. Food to relieve the present necessities have flowed in upon us in abundance from all quarters, but a long winter is before us, and we shall need all the aid that sympathizing humanity can render. Such an exhibition of sympathy and generous aid as has been called forth by our great calamity has never been equaled in the history of the world. It has cheered and encouraged our citizens. Business has largely been resumed; houses, mostly of a temporary character, are springing up in all parts of two thousand acres of ruins. Many prominent buildings are being erected, and the noted energy of our citizens is being everywhere displayed. In the name of our citizens I tender thanks, and heartfelt thanks, to those who have so nobly and generously sympathized with and aided us in our great distress.

[Signed.] R. B. MASON, Mayor.

THE "TRIBUNE."

At first view it was supposed that the two eight cylinder presses of the *Tribune* Company were unharmed to any serious extent, but closer examination shows that one is entirely ruined, while the other can be repaired and made as good as ever. Men have been put to work on the *Tribune* building, and it will be rebuilt as soon as possible. It will be as much like the building destroyed as possible—only made more fire proof, if possible.

REBUILDING.

Chicago is neither dead nor burned. Business is again resumed to a large extent, and the old Chicago energy is daily and hourly manifesting itself with a power equal to the occasion. Houses are being raised on the burnt district, and many buildings of a permanent character are contracted for and will be immediately erected. Chicago will rise from its ruins, and in an incredible short space of time, and astonish the world by a Chicago more grand and beautiful than the one that has been destroyed. Many thousands of buildings are gone, but the indomitable energy and the old Chicago spirit of progressiveness remain. A part of the shell is destroyed, but the life, the energy and soul remain.

[Signed,] R. B. MASON, Mayor.

PHŒNIX INSURANCE COMPANY.

Gov. Jewell, of Connecticut, Chairman of the Finance Committee of the Phœnix Insurance Company of Hartford, with a corps of general agents and adjusters, is now in this city, and all claims against that company will be paid at once.

FALSE REPORTS.

There are many reports of attempted incendiarism to-day, but they are destitute of foundation except in the excited brain of sensationalists.

LABORERS KILLED.

Three laboring men were instantly killed this morning by a falling wall at the corner of Clark and South Water streets.

THE NATION'S GENEROSITY.

BANGOR, October 12.—Four thousand dollars have been raised here, and collections will be made in the churches on Sunday.

ROCHESTER, October 12—The Active Hose Company raised $500 for the widows and orphans of firemen lost in the Chicago fire.

WASHINGTON CITY, October 12.—In the public schools to-day $1,000 was subscribed.

NEW YORK, October 13.—The disaster by the Chicago fire continues to excite public interest. Every detail regarding it is read with absorbing interest. Contributions continue to pour in from every quarter. Supplies are furnished in large quantities for consignment by the railroads. Immense numbers of persons of every age and sex yesterday came to the railroad depots with packages of various descriptions, containing goods to supply the wants of the distressed. At the Erie depot clothing came in bundles, bales, trunks, valises and cases. Boxes and barrels formed by far the larger part of the offerings. Provisions were also contributed in abundance. Almost every article of every kind of provisions were most plentifully offered.

Many prominent business firms gave substantial evivence of their generosity. One firm, a sugar refinery of the city of Williamsburg, gave one hundred and four barrels of crushed sugar. It would be impossible to make mention of the gifts in detail, or to enumerate them. The contributions of goods received by this company alone will probaby reach the value of one hundred thousand dollars per day. Contributions in money from this city and vicinity are rapidly going forward. The committees which are appointed to solicit aid are numerous, and by the end of the week an immense sum will be realized. From the interior of the State contributions are coming in with promptness.

NEW YORK, October 13.—The town of Cohoes shipped $4,000 worth of knit goods yesterday to the Chicago sufferers. The subscriptions amount to seven thousand dollars.

The City Council of Fall River, Mass., voted $25,000.

At Baltimore last evening over $10,000 had been subscribed at the counter of the *American*.

At Binghampton the Common Council has been asked to contribute five thousand dollars.

The committee appointed to make collections among the Catholic and temperance societies of New Jersey will make united contributions.

PHILADELPHIA, October 13.—Contributions are pouring into the Chicago relief fund from all quarters of the city. Allentown appropriated three thousand dollars.

NEW YORK, October 13.—The subscriptions by the Chamber of Commerce since yesterday will probably be about seventy-five thousand dollars.

BOSTON, October 13.—The Chicago subscriptions up to noon amount to $280,000.

FINDLAY, Ohio, October 13.—At a meeting of the citizens last evening arrangements were made for bringing to this place and supporting as long as may be necessary, ten families made destitute by the Chicago fire. A committee of two leading business men will proceed to Chicago immediately to transport the families to Findlay.

WHEELING, W. VA., October 13.—The First National Bank of this city suggests that the National banks throughout the Union contribute two per cent. of their capital as a fund to be loaned to the associated National banks of Chicago for a specified period, to enable them to at once resume business, interest to be paid semi-annually.

DEBRIS OF THE FIRE.

Gleanings from our Exchanges on the Chicago Calamity.

The following are from the Chicago *Journal* of Tuesday:

SOME idea of the fearful ravages during the great fire at Chicago may be entertained by comparing it with the other two greatest of fiery visitations in the history of the world—those of London and Moscow. The great fire of London covered 500 acres of ground, rendered homeless 200,000 inhabitants and 13,000 houses. That of Moscow burned over a space of 400 acres, and destroyed 12,000 houses. The great fire of Chicago laid waste over 1,800 acres, upward of 18,000 buildings, and rendered about 85,000 persons homeless.

AS TO pecuniary loss, no fire which ever occurred in the world has been attended with that suffered by Chicago, as in no other city was there such an amount of valable merchandise or so many expensive buildings destroyed. Most of the merchants had received their winter stocks of goods, none of which they were able to save. The loss in merchandise alone at this last conflagration will be double that suffered by London and Moscow combined.

ONE thing particularly strikes the passengers through all the streets—the absence of everything of a combustible nature. Brick, stone and iron abound, and make up whatever is left of the most magnificent and costly structures. Dirt, in the ordinary sense of the term, has vanished; all is clean, but oh, how desolate. Another thing is the uniformity of the destruction. The marble palaces and cheaper brick and mortar blocks lie in common disorder. There is no distinction, except in the presence of iron pillars and marble door and window ornaments.

YESTERDAY afternoon, when fire was rushing southward along Michigan and Wabash avenues like a race horse, and firemen and people were paralyzed, a new leader suddenly burst upon the scene. General Sheridan, "fighting Phil," who can fight rebels or flames, sprang upon a fire engine and made one of those sharp, stirring speeches for which he is noted. He told the people that if they would save the city the fire line must be broken by gunpowder; the buildings must be blown up, and if they would go to work systematically he would assist them. The effect was electrical. The crowd, recognizing the hero of so many battle-fields, and having faith in his leadership, replied with long hurrahs, and acting under the General's orders, in a few minutes so many buildings had been blown up that the fire line was broken and the southern portion of the city was saved from destruction.

ALL the records of deeds and mortgages are destroyed. This includes all the real estate, not only in Chicago, but in Cook county, with its numerous suburban towns. Fortunately the abstracts of titles, in the office of Shortall and Hoard, conveyances, are known to be safe. There is great hope that when the vaults are opened at the other abstract offices, the record books, which are intended to be perfect copies of every real estate transfer in the county are safe. There are several of them, and it would be strange if some of them, besides the one already examined, are not safe. A leading member of the Chicago bar gives it as his opinion that the title to all the property in the county can be re-established by means of these abstracts. The Legislature will probably pass some act to cover the case. As to the value of real estate, it is now entirely indeterminate, because it is impossible to divine where the future business center will be. The latter will depend upon the location selected by the leading business houses, which are already in consultation.

AS A specimen of what the legal profession of this city has lost, we may state that General H. N. Eldridge, of the firm of Eldridge & Tourtelotte, the attorneys for Field, Leiter & Co., lost all his papers, not a scrap left, after having practised law for fourteen years in Chicago, and in the same office. There is not a law office nor a law library left in Chicago, except the few small duplicate libraries at the residences of the leading lawyers. There is not a paper showing that there is a suit pending in any of the six courts of record in Cook county, including the Federal Court. There is not an indictment in existence in the county against any one, not a judgment, not a petition in bankruptcy in the Federal Courts. Even the duplicate files that the lawyers kept in their offices of important cases are all gone. A few may have escaped by being taken to the houses for Sunday or night work. We may add that there are in Chicago about five hundred lawyers.

A GENTLEMAN well-known in the city, who has been afflicted a long time with a cancer, resided in rooms in Lombard Block, attended by two lady relatives—a sister and a niece. In the dire extremity in which the party was placed, and not withstanding that the invalid pleaded that the ladies would save themselves and what valuables they could, and leave him to be burned, and thus an end be put to his misery, they seized and carried him bodily down three flights of stairs and finally placed him in a position of safety. And here it may be mentioned as an instance of the extortion practiced upon suffering humanity, that an expressman was offered fifty dollars to take them to Twelfth street, but refused—asking one hundred dollars. Other instances of heroic self-sacrifice and abnegation, on the part of women could be mentioned, the above being only one of many.

ALL of that portion of the city lying between the river, east of Clark street and west of the lake, and as far north as Fulton avenue, is entirely destroyed, except the residence of W. B. Ogden corner of Clark and Oak streets, and near the glass conservatory, and also three or four buildings west of Lincoln Park. These few land marks are all that remain of that once beautiful part of the city; even the "city of the dead"—the old burying ground—was not exempt from the ravages of the fire, it being burned over, leaving the tomb-stones looking most sad.

THERE are only four buildings standing on the South Side below Van Buren street. Those four are the Custom-house, the Court-house, the First National Bank building and the *Tribune* building. They were all completely burned out, nothing remaining except the walls and parts of partitions. We doubt if any of them can ever be used again, except the Custom-house. Those immense walls seem to have stood the fire test without flinching. The masonry of the other three has been very seriously impaired.

THE Third National Bank vault was found all straight. Everything is taken out of the American Express Company's safes in perfect condition. The Traders' National Bank vault has been found to be perfectly unharmed. The Merchants' Saving, Loan and Trust Company's vault is apparently all right, yet there are some fears as to the safety of the contents. We are assured, however, that their depositors will not lose anything.

AT Union Street Station all is bustle and activity, sending dead bodies to No. 64 Milwaukee avenue to an undertaker who is employed by the city to take charge of them. Not less than one hundred persons have been killed, and it is thought that the number of dead bodies will yet far exceed this.

Persons who indulge in the use of cigars or tobacco in pipes are called upon to observe unusual care. Every family should also provide themselves with some vessels of water, a barrel or tub, to be kept standing for the purpose of extinguishing incipient fires.

THE Mayor has issued a proclamation cautioning the citizens to exercise the utmost care in handling of fire in their homes,, lest other fires should occur, which might be impossible to extinguish for want of water.

THE distilleries of Thos. Lynch, Graeff, Roelle & Co., Dickinson, Leech & Co., Keller Distilling Company, Kirchoff's and Shufeldt's Rectifying Works were consumed, leaving but three in running order.

WHEN the destruction of the contents of some stores was inevitable, the people were told to help themselves. In a boot and shoe establishment, a man was noted leisurely trying on a pair of boots, to get a perfect fit, while the rear of the store was in flames.

ROTHERMEL'S great historical painting, "The Battle of Gettysburg," was destroyed in the Academy of Design, together with other valuable paintings and works of sculpture.

THE vaults of this institution, containing many million dollars' worth of valuables, have been ascertained to be unharmed. It is thoroughly guarded night and day.

BIERSTADT'S great painting, the Yosemite Valley, was in the Art Gallery, Crosby's Opera House, and was not, so far as we can learn, saved.

SEVERAL of our crafts were burned in the river and in the dry docks. The schooner Stampede was one, and the bark Glenbeulah another.

The Mechanics' Savings Bank on Twenty-second street started promptly this morning paying its depositors.

[From the Chicago Post of Tuesday.]

IN the North Division McCormick's reaper factory, the Chicago sugar refinery the Galena freight-house, the Galena elevator, and several others, and miles of residences, including the costly dwellings of Isaac N. Arnold, Geo. L. Dunlap, Obediah Jackson, Major General Rucker, Samuel Johnson, O. F. Puller, George S. Rumsey, Dr. C. V. Dyer, and scores of others equally well known. Then in this division were the great Waterworks, from whence over thirty million gallons of water were daily dispensed to the populace in all parts of the city, who now can obtain it only by going to the lake, a journey of many miles for some of them, or by equally weary pilgrimages to the artesian wells, of which there are a few here and there. Also the great breweries of Lill and Sands, and numerous tanneries, distilleries, &c., all along the North Branch.

A COLD BLOODED murder was committed at about four o'clock yesterday afternoon, at the corner of West Van Buren and Halsted streets. An Italian ruffian, named Periere, who keeps a saloon at that place, had a slight war of words with one of his customers, an Irishman named Reddy, whom he followed outside the front door, drew a dagger, and stabbed through the breast. The victim fell dead upon the sidewalk, and his murderer fled, but was subsequently arrested, it is said. About half an hour later, another man, whose name was not learned, was also stabbed by some unknown party so severely that he will probably die. He was taken into the nearest house, and his wounds dressed by Dr. Clarke.

CANAL STREET is now the thoroughfare. The tide of travel which surges northward from the remaining portion of the South Side naturally takes the first paved street west of the river, and the great procession of teams and people which turns northward from Twelfth street, after crossing the South Side, passes over Canal. Many of the old business houses whose establishments on the other side of the river have been burned down, have already located on Canal street, and eligible localities find ready market. The *Tribune* and *Journal* newspapers have been re-established at Nos. 13 and 15 Canal.

NEWS has been received at the Post-office that the bodies of thirty poor refugees are lying on the prairie, a few miles west of the city. The unfortunates, most of whom are women and children, died from prolonged hunger and exposure. Teams with provisions, &c., are being sent out to those who are not yet beyond the reach of aid.

EVERY vehicle was dragooned into service yesterday. Going on a trot up Wabash avenue, threading its way among the carts, we saw a hearse, bearing two happy children within the plated parallel bars, with a woman on the driver's seat and a rocking-chair, hoop-skirts and household utensils tied across the narrow top.

IN one place along the sidewalk our reporter saw a family gathered with their shattered household goods. The father sat on a box weeping like a child; the braver mother had made a little fire in the grass, and was frying some meat, and the children were playing hide and seek among the baggage.

LITTLE is left of the city except suburbs, and these were, all day yesterday, so crowded with fugitives and their fragmentary furniture in every fantastic attitude, that every out-leading avenue looked like a camp. All through the rainy night tens of thousands held their weary bivouac.

AMONG the houses destroyed were the princely residences of Tutbell King, Jas H. Bowen, Bishop Foley, H. H. Honore, C. T. Bowen, N. Tuttle, S. J. Suydam, E H. Hadduck, and hosts of others, well known landmarks in Chicago's architectural beauty.

A POLICEMAN saw a man who had threatened to set a building on fire, and he was about to accomplish his devilish act, when he drew his revolver and shot him through the heart.

YESTERDAY was marked by a great degree of intoxication. Drunken men were numerous, and whisky, wherever found, seemed to be considered free plunder.

A MAN on Lake Park was burned, that was watching some goods placed there, as he was asleep.

HAMLIN & HALE saved from $100,000 to $150,000 worth of silks and other valuable goods.

EFFECTS OF THE FIRE.

As an indication of the general feeling produced by the Chicago fire and incidental thereto, the misfortune of the insurance companies of the country, we republish the following from the New York *Bulletin*:

WALL STREET EXCITED.

Owing to the condition of the previous dispatches from Chicago, concerning the amount of loss by the fire, the money market became excited, and loans were made at high commission, seven per cent. being the bottom rate. The stock market was a scene of wild excitement, prices fluctuating from one to three per cent. almost in a minute. Throughout the day the market was in a condition of panic. Weak holders were shaken out, and weak speculators were broken. On the whole the great fire has been one of the most blighting blows which the country has received for many years, and one from which it will take a long time to recover, even after the present excitement has passed away. Fortunately the Chicago banks, as a rule, are not in debt to New York, but on the contrary our banks hold large Chicago balances. These have been lent out by the banks, and it will take at least a month before affairs in Chicago can be so arranged that this money can be used there. The Chicago banks are without their books and will not possibly be in a condition to attend to business for some time to come, and in the meantime the money due Chicago will remain here and will be of great use.

THE GRAIN MARKET.

The grain market yesterday was somewhat excited, owing to the absence of reliable information from the scene of the great disaster. It is now generally accepted that about three million bushels of grain have been destroyed, which is just about one half the stock held in Chicago. In consequence of this there has been a slight advance beyond Monday's prices, but many dealers assert that it has been caused by a decline in freights. Holders are asking high prices, but buyers refuse to buy at the extreme rates. There was, during the day, a slight speculative inquiry, speculators being willing to take hold at the current rates. Any advance on their part, however, would advance the market, and not being willing to buy at extreme prices they held back. The prices throughout have been unsettled, and it is probable they will remain so until the full extent of the conflagration is ascertained. At the close, the indications were that the market would become even strong, but business was interrupted by the meeting called for the relief of the sufferers. There is a prevailing opinion that notwithstanding the extent of the disaster some markets are being held at Chicago, but, there being no telegraphic communication with that city, dealers are ignorant of Western quotations. This aided the present unsettled condition of the market. Breadstuffs continue to advance, however, and the probabilities are they will go even higher.

THE PROVISION MARKET.

The news from Chicago has so far had but little or no effect upon the provision market. All the dealers are undecided, and avoid either buying or selling. The holders of stock are asking advanced rates, and refuse to sell at current prices. They are holding back in anticipation that some news may come to advance the market. The buyers are also waiting because they expect the fire will result in a decline. Under these circumstances, but little business has been done, and that was confined to the actual necessities of buyers. The fire has occurred at a most opportune moment. It is now just between crops. There was a very small quantity of old crop on hand at Chicago, and only small lots of the new crop had arrived; there was nothing, therefore, to be destroyed. The houses engaged in this line of business, however, have not been touched by the fire, but both buyers and sellers are holding off, in the anticipation that something may turn out to their advantage.

THE FEELING AMONG DRY GOODS MERCHANTS.

In the dry goods market the fate of Chicago was the absorbing topic of conversation yesterday, and, in the absence of an active trade, this subject seemed to monopolize the attention of all classes of dealers. Expressions of the warmest sympathy for the sufferers were heard on all sides, and substantial aid was tendered by many of the leading houses in liberal subscriptions to the relief fund. The representatives of the Chicago dry goods houses were not, up to a late hour yesterday, in receipt of any great advices from their firms later or more detailed than those published in the evening papers. Some had received telegrams dated on Monday, reporting the destruction of their stores, and none entertained a hope that their buildings had escaped, even though they had not received positive information of their destruction. As regards the future effects of the disaster upon trade, no definite opinions were expressed by either the New York or Chicago merchants. It was generally conceded, however, that everything depends upon the action of the insurance companies, and the sufferers cannot estimate even their probable losses until they ascertain what percentage of their insurances will be paid. Fears were expressed that the accounts of many of the banking and mercantile houses were consumed, which would necessitate great delays in effecting settlements. Our merchants express perfect confidence in the ability of the leading Chicago houses to withstand the shock, however great it may be, believing as they do that the great spirit which has heretofore characterized the business men of that city has not been extinguished. Many predict the immediate erection of frame buildings for the transaction of business, and the commission merchants announce their readiness to supply their Chicago customers with goods upon such terms as they may require, besides granting such extensions upon bills already purchased as the exigencies of the occasion may necessitate.

THE INSURANCE INTEREST.

Of course the insurance companies, being above all others directly affected by the fire, are profoundly agitated. Upon the discovery that the destruction of property could not fall below $150,000,000, and might largely exceed that amount, brighter hopes of yesterday were forsaken, and it was at once concluded that few fire companies having agencies in Chicago can hope to save much of their assets, especially as they have competed very actively for business their and have taken heavy risks. Very little is known by the companies as to their actual losses beyond what may be inferred from the maps of the devastated districts; but the inferences from that source are such as to leave them little hope of escape. It was rumored early in the day that seven New York companies and three organized in New England had ceased to take risks, owing it is supposed, to the fear that their assets were gone. The total capital of these ten companies is $7,050,000, and their assets $13,563,000.

BALTIMORE.

Episcopal Convention.

BALTIMORE, October 13.—In the Episcopal Convention the Committee on Ritual was announced as follows: Doctors Tread, of Connecticut; Haight, of New York; Andrews, of Virginia; Stringfellow, of Alabama; Beers, of Wisconsin; and Messrs. M. B. Jackson, of Maine; Orlando Meads, of Albany; William Welsh, of Pennsylvania; J. W. Andrews and O. J. B. Craighead, of Tennessee.

A message was received from the House of Bishops, announcing the appointment of the Bishops of Iowa, Central New York and Nebraska as members of the Joint Committee to nominate a board of missions, and the appointment of Bishops Whittingham, of Maryland, Bishop Stephens, of Pennsylvania, Right Rev. G. T. Bedell, Assistant Bishop of Ohio, Bishop Atkinson, of North Carolina, and Bishop Coxe, of Western New York, as a committee on the part of the House of Bishops to consider the report on uniformity of rituals.

The Committee on the State of the Church was instructed to inquire into the expediency of establishing training houses for the education of women to visit the sick, conduct mothers' meetings, bible classes and as school teachers, they to be sent forth to co-operate with the pastoral and missionary clergy and to have the assurance of a comfortable home through life.

A memorial from Rev. John Auketell, of New York, requesting the next general council to authoritively set forth the text of the Nicene creed, was presented and laid on the table.

A report of the rector of the American Protestant church, in Paris, was read, showing the reverses suffered during the siege, and expressing the hope that assistance would be afforded it. Referred.

A message was received from the House of Bishops, with a resolution that, the House of Clerical and Lay Delegates concurring, the hymnody reported by the Joint Committee of the General Convention be authorized for use in this Church, and that no other hymns be allowed in the public worship of this church except such as are now ordinarily bound with the Book of Common Prayer, the regulation to take effect and become authoritative on the first of Epiphany, 1872.

At three o'clock P. M. the Convention adjourned.

ST. LOUIS.

A Significant Political Suggestion.

ST. LOUIS, September 12.—The *Republican* of to-day has an editorial of much significance. It suggests that no Democratic candidate be nominated for 1872. It says there is no national precedent for such a course, but the experiment is not an untried one, and cites the campaign in Missouri last fall. It then asks, why should not an experiment that proved so successful in breaking the power of radicalism in Missouri, be employed to break the power of radicalism in the Union? Why should not the whole country find deliverance from a party that is essentially proscriptive and oppressive, unconstitutional and violent in its policy and practice, in the same effective way in which a single State found such deliverance? The result of the Missouri election of 1870 was not, indeed, a Democratic victory, but it was certainly a radical defeat, and the abolition of disfranchisement—the substance of animosities—the restoration of concord and good will among the people, and the revival of a cheerful interest in public affairs, and the local enterprises which followed that defeat are consequences which vindicate the wisdom of the experiment in Maryland, and at least suggests its repetition in a larger field. It thinks the adoption of this policy would divide the Republican party, and that the liberal element in that party would nominate a candidate in opposition to Grant whom the Democrats could support, and the result would be a majority of Democrats and liberals in Congress, which, while differing materially from a Democratic victory, would be an inestimable improvement on the present order of things.

THE ALLEGED POISONING CASE.

The trial of Dr. Medlicott, charged with poisoning Isaac M. Ruth, at Lawrence, Kansas, some months ago, was commenced on Tuesday. Two days were consumed in obtaining a jury. Yesterday the testimony was heard, all of which was medical in character. Doctors Sanders and Newman testified that they found morphine and atropine in Ruth's body. Prof. Wormley, of Columbus, Ohio, watches the scientific evidence for the defense.

WISCONSIN.

The Late Calamity.

JANESVILLE, Wis., October 13.—Governor Fairchild has telegraphed the following from Green Bay in relation to the fires: The appalling calamity has not been exaggerated. Over three thousand men, women and children are now destitute. The loss of life has been very great. Not less than five hundred persons have been burned at Peshtego and vicinity, and three hundred on the eastern shore. Scores of men, women and little children are now in temporary hospitals, burned and maimed. What is wanted is money, clothing, bedding, boots, shoes, provisions of all kinds not cooked, building materials, and everything needed by a family to commence life with. The people are responding nobly, but there is no danger of too much being received. The destitute must be provided for during the winter.

MILWAUKEE, October 13.—Colonel C. D. Robinson, of the Green Bay *Advocate*, telegraphs to the Mayor of Ludington as follows: The Northern steamer is just in. Dr. Nicholas, of your city, and other passengers, bring the terrible news that four hundred and seventy dead bodies have been found at Peshtego and vicinity, and it is thought that the loss of life will reach seven hundred. This is exclusive of the east shore, where the loss of life is fearful.

Attempt at Wholesale Slaughter.

MILWAUKEE, October 13.—The ringleaders of the gang who attempted to throw the passenger train from the track night before last have been arrested. They were part of the Chicago plundering party, fleeing from Pinkerton's death order with, probably, the intention of making a raid on Racine or Milwaukee. Their intention being apparent, the railroad authorities would not allow them to come any further north than here, and they retaliated by attempting a wholesale slaughter.

AID FOR CHICAGO.

LONDON, October 13.—The Common Council of the city to-day unanimously agreed to forward one thousand guineas immediately to the Mayor of Chicago. Appropriate resolutions of sympathy were passed. The Lord Mayor received yesterday contributions from private individuals amounting to upwards of seven thousand pounds sterling. Baring, Morgan, Rothschild, Brown, Shipley & Co., the Great Western Railway of Canadda, and the Grand Trunk Railway subscribed one thousand pounds each.

The Liverpool Chamber of Commerce voted five hundred pounds yesterday. The American Chamber contributed $18,000 to-day. There will be a mass meeting to receive further aid.

The Edinburgh Chamber of Commerce unanimously requested the calling of a meeting to organize relief committees.

The chief merchants of Southampton have opened subscriptions. They have called upon the citizens generally to contribute.

At Berlin the President of the detective police and the United States Consul had lists for the relief fund.

At Frankfort-on-the-Main the leading bankers and merchants are taking an active interest in the relief movement, and are securing subscriptions from other committees.

INSURANCE LOSSES.

The losses of the Liverpool insurance companies by the Chicago fire are estimated at £420,000.

MARINE NEWS.

The steamer City of Limerick arrived out.

The steamer Russia, from New York, touched at Queenstown, and the Australia and Assyra at Moville.

AUSTRIA.

REVOLT IN HUNGARY.

VIENNA, October 13.—A dispatch from Pesth states that the people of Oguein, a town in Croatia, are in revolt on account of the sale of forests in the district known as the "Military Frontier." Vigorous measures have been taken to suppress the outbreak.

Later.—A dispatch from Agram, the Capital of Croatia, announces that the revolt in Oguein has been suppressed. Three of the leaders were killed, and nearly all their followers taken prisoners. A few escaped to the mountains. Insurrectionary manifestos were placarded in Agram.

CHICAGO'S PROSPECTS.

The liberality and energy which the business men of Chicago display is regarded as a cheering evidence of the prospects for a revival of trade in that city, and meet with hearty commendation in all departments of business here.

PRAIRIE AND FOREST FIRES.

The prairie and forest fires which have been desolating the western country excite much interest, and sufferers by the calamity awaken sympathy everywhere. When the details of the disasters are known a relief movement will probably be set afoot for these suffering people.

THE SEWER INSPECTORS.

The Committee of Inspection of Sewers yesterday stated that they had not been paid since July; that their pay rolls were purposely kept back by the ring in order to involve good men in acts of violence.

MANDAMUS GRANTED.

A mandamus was granted in the Supreme Court this morning compelling Connelly to issue bonds and stocks under the two per cent. act. The Court promised to decide the question of the funded stock in a few days.

BANK SUSPENDED.

The Stuyvesant Bank suspended yesterday. The depositors will probably be paid, though the capital of the bank is seriously impaired. The failure is said to be attributed to the Chicago fire.

INSPECTORS OF ELECTION.

Mayor Hall states that he has only two hundred and seventy-three inspectors of election selected, out of the whole number of 1,170, as vacancies from last year do not exist.

UNLUCKY SPECULATION.

The *Times* states that Wm. M. Tweed recently lost $4,000,000 by an unlucky speculation in the West. It is also stated that Sweeny advises Tweed to resign.

RECITING THEIR EXPERIENCE.

Several Chicagoans, who reached here last night, recited their experience during the fire. The parties at the hotels were objects of attraction.

REPEATING AT ELECTIONS.

It is generally credited that vigilance committees have been formed to stop repeating at the next election.

THE PRAIRIE FIRES.

Vivid Description by an Eye-witness--An Interesting Narrative.

From a party lately arrived in this city from Dakota, who traveled some days through and along the burning district of Dakota and Northwestern Minnesota, we glean the following. We use the language of our informant:

For some days previous to leaving Cheyenne River in Dakota, at a point seventy-five miles west of the crossing of the Northern Pacific Railroad at Red River, a dense smoky atmosphere prevailed, which each day grew more dense, warning us that immense "prairie fires" were approaching our quarters rapidly, and our party deemed it prudent to move eastward as fast as possible. We made immediate preparations, but found that we were in the saddle none too soon. The intense heat and weight of smoke affected us very much, and soon after starting we were forced to ride as rapidly as it was possible for our beasts to carry us. All through the long day we toiled along, our eyes nearly blinded, with parched throat and cracked lips and intense thirst, we rode on and on, till at nightfall we came in sight of Red River, having ridden seventy five miles without rest or halt but once. Glad were the hearts of our party, and much rejoicing was there at our escape from great danger, if not from loss of life. At points along the route the wall of flames would be quite near us. Its roar could be heard many miles, and its rapid motion was surprising. The line of fire seemed to be a solid wall of flame of about twenty to thirty feet in height, and moved as rapidly as a fleet horse could run. Occasionally a portion of the line would break away in bodies of forty or more feet square, and be carried, with almost electric rapidity, a distance of fifty or a hundred rods ahead, and then strike the high, dry grass, which would immediately ignite and add its destroying force to the already gigantic conflagration.

After resting at Red River, our party, reduced to three persons, moved on eastward and southward, passing over a district but lately burned. We could not distinguish an object fifty yards away. Great, heavy clouds of smoke hanging, like a pall, through all the distance of two hundred and fifty miles we traveled, before reaching the Mississippi River, and even there the smoke was very oppressive. We deviated somewhat from a usual route traveled, and found at different points the charred remains of three human beings, nothing left but the bodies, and these burned to a crisp. The sight was horrible in all particulars, and not a thing could be found that would in any way identify the burned corpses.

We heard of one case that showed great presence of mind and much calmness. A man who had been with Sherman on his "march to the sea" was caught in the midst of the fire, which was approching him from all sides. Having no matches to create what is called "setting a back fire," and death staring him in the face, his wit suggested a "gopher-hole." Setting at work with the will that a man would use who was working for life, he attacked the sod with a large hunting knife. Cutting a large piece away, he rolled it back and at once commenced throwing the soft, dry earth upward and outward, and soon had a hole dug of sufficient size to admit his body. Carefully drawing the sod toward him, he succeeded in drawing it over his body, and then filled up the "chinks" from dirt within. He laid there until the fire passed over him and was speeding furiously on its way miles distant, then he slowly crawled out of his living grave, heated fearfully, but injured in no way whatever. His soldier experience had saved his life.

No one who has not witnessed this besom of destruction on the "plains," can form any idea of its magnitude, its velocity, its fiendish-like cruelty, its thundering roar and its vast destruction.

The latest information we had was that the fire had reached the "Big Woods," about two hundred miles northwest of La Crosse, and was raging furiously, destroying everything it came in contact with, houses, barns, cattle, everything is lost to settler and farmer who are in the track of the destroying element. In the peat country the fire will linger much longer then on the prairies, and do much more damage, as it destroys the earth.—*La Crosse Leader.*

—The fire at Manisto, Michigan, last Sunday night, was very destructive. The loss is estimated at $1,000,000, on which there is an insurance of but $80,000. The inhabitants are in a very destitute condition, and an appeal has been made for aid.

LUZERNE COUNTY gives Parish (Rep.), for Assembly, 1,134 majority. This is pretty good for a county which Democracy hoped to carry, considering it doubtful.

WM. A. WALLACE, ex-chairman of the Democratic State Committee, says Russell Errett is too much for him. We told him that long ago, but he would not believe us.

THE STATE TEMPERANCE TICKET polled a very small vote throughout the State. The political demagogues who led the movement were undoubtedly in the service of the Democracy but their influence amounted to nothing. We hope that they will repent of their errors and give up their situations as pimps to the Democratic party.

NEARLY one entire page of the N. Y. *Tribune* is taken up with the announcement of the losses of the various city insurance companies, by the fire in Chicago. The public are entitled to this information, and it would be well for our home companies to make public the exact amount of loss sustained. Otherwise it will be thought to be greater than it is.

IT WILL require the official returns to decide whether Messrs. Sherlock and Mickey of the Beaver, Washington and Butler Assembly District are defeated. In the meantime we must confess our surprise at such a result when we know that Butler and Beaver gave about eight hundred Republican majority and Washington only about two hundred Democratic. Personal matters must have interfered if our candidates are defeated.

THE PRAIRIE fires which have been raging for some days past in Wisconsin are reported to have caused the death of over two hundred persons, and destroyed several important towns. The excessive dry weather has been the principal cause of all the trouble and loss. We also have reports of similar calamities in Michigan and Minnesota, but no where so bad as in Wisconsin. The telegraph lines in many places have been destroyed and reliable information cannot be had.

TEXAS is correctly looked upon as the most lawless, reckless State in the union. Murderers, thieves and criminals of all sorts have wandered about within its vast limits for so long that the rest of the world has gotten accustomed to them as a necessary portion of the great whole. During the past year a strong reaction has taken place against the criminal element in many parts of this country, and one of the results has been a large increase, by immigration, of the population of the Lone Star State. And therefore, while every other State this year has shown an increased Republican vote at the various elections, Texas alone has added to her Democratic majority, and has elected four Democratic congressmen.

THE CONTRIBUTIONS so far to the Chicago sufferers amount to considerably over one million of dollars. They will probably reach two million inside of a week. In this connection we would call attention to the herculean labors of the P. F. W. & C. Railway officers and attaches. They have run their trains night and day, carrying provisions to, and unfortunate sufferers from Chicago, and to their credit be it said, have done it all without charge. Some persons are prone to belabor and abuse railroad corporations and officials, and charge that neither the one nor the other have souls. We think the past week has pretty fairly demonstrated the falacy of the charge, as no class have exceeded the railroad men in their efforts to relieve the suffering of the people of Chicago.

IT HAS often been remarked and very generally accepted as true, that this world of ours is selfish, that charity has few abiding places; but the assertion must be a libel. When the painful tidings were flashed abroad over mountains, and across oceans, that beautiful, proud and enterprising Chicago was laid waste by the insatiable demon of fire, and her people suffering for want of the actual necessities of life, then it was that the dormant spirit of charity was aroused, and the inner heart of the world opened. With scarce time to realize the hardships entailed by the terrible conflagration on the people of the great city of the west, with but meagre dispatches before them telling the tale of dire distress, a charitable world arose to discharge its duty towards suffering humanity, and from nearly all quarters of the globe came words of sympathy and substantial offerings. The rich nobly shared their worldly possessions, and the poor with equal generosity and lavishment sent their mites. These things are gratifying and prove that the world is not dead to charity, but only needs an incentive to act. They give us a higher opinion of the goodness locked up in human nature and must invoke the smile of approval from God the great giver of all things.

THE COMMON SCHOOLS.

Yesterday was a gala day in our city. The streets resounded with the enlivening and sweet strains of music, gay banners everywhere floated, and were borne by smiling bright eyed children; fathers and mothers stood gazing with eyes bedewed with tears of joy at the procession of little children, which turned and curved here and there, and almost took complete possession of our streets, whilst the merry voices of the mirthful throng everywhere captivated and pleased us. The occasion of this beautiful and touching scene, was the dedication of the new High School building, which has just been completed and is ready for occupancy. We need not describe it minutely to our readers, as they have all doubtless noticed it as it approached completion, standing as it does so prominently and proudly on the summit of Prospect Hill, near the water basin, and looking down upon the busy and ever changing scenes taking place in and around the Union Depot. It is in every way a praiseworthy and suitable work, reflecting great credit upon our public school managers, and its influence will tell on the future of our city and State.

In the procession we noted one banner which read "Education the safety of the Nation," and to this we lend our hearty endorsement. It is a great truth, and one that should engage our earnest, thoughtful attention. If we examine the history of the universal world, we shall find the truth of this motto corroborated. Where education has generally prevailed, we shall find the most prosperous, enlightened, happy and peaceful people, the fine arts promoted, science at full tide of success, civilization generally far advanced, and literature an acknowledged profession. On the contrary, the nations most noted for misrule, impotence, crime and general degradation are those which spurned the rich blessings of education. If we should follow this thought, and apply it to communities, families and individuals, the same truth would be apparent, viz., that education and civilization go hand in hand, whilst ignorance is the mother of anarchy and crime. Therefore, particularly in a free republic like our own, is it of the highest importance, not only to provide the largest facilities for obtaining an education, but to see that those facilities are enjoyed by every class of our people, thus utterly preventing the growth of ignorance and consequently of crime, and at the same time, by all possible demonstration, both in public and in private, on the highways and at the fireside endeavor at all times to popularize and compel the belief that a good education is the best fortune for a child or man to possess. Thus we shall secure the "safety of the nation," for as our people acquire knowledge, they will obtain wisdom, truth and justice, which will perpetuate our grand, free institutions, which will nerve the arm, while they educate the sense, will strengthen the hearts of our people, and raise up for us a host to protect us in time of danger. No lover of his country opposes the common schools, or anything which tends to their prosperity. They are the nations right arm, and on them we must depend for the brain and muscle which is to take up the affairs of the land, and carry them along through the great hereafter. God bless our common schools, and always prosper and protect them.

RELIGIOUS INTELLIGENCE.

The General Conference of the Evangelical Association, familiarly known as "Winebrenarians," similar in many respects to the Methodists, holds its quadrennial session at Naperville, Illinois, commencing on Thursday. The membership is chiefly composed of Germans, although the English speaking part is growing rapidly. The official papers and magazines are issued in the German and English languages. The body contains a membership of about eighty thousand, over six hundred itinerant and over four hundred local ministers. The work is divided into fourteen Conferences, twelve in this country, mainly in the Middle and Western States, and one in Canada and one in Germany. Their missionary work in America and Europe comprises two missionaries. Important matters will come before the body, among which will be the name of the body, many of the English portion contending "Association" is an unsuitable name.

The *Herald and Presbyterian* gives some interesting facts, compiled from the Minutes of the last General Assembly, in regard to the Presbyterian Church, from which it appears that nearly a quarter of the Church is in New York; more than half of it in the three States of Pennsylvania, New York, and New Jersey. Ohio is the third State in the number of Presbyterians. New Jersey is the banner State, having one Presbyterian to every twenty-four inhabitants

Judge McKean, the "upright judge," whose course is striking terror to Brigham Young, and the rest of the duped ones, is a Methodist, and an influential member of Rev. Mr. Pierce's church at Salt Lake city.

The Western Book Agents at Cincinnati, of the Methodist Episcopal Book Concern, have adopted the new and novel plan of sending to the sessions of the Annual Conferences, a few boxes of well assorted books, writing materials, stationary, etc., in charge of an *attache* of the establishment, to supply the ministers directly, without giving them the trouble to order by letter, or the expense of visiting the city to select them. The plan works admirably.

Much interest was felt in reference to the meeting of the American Board of Foreign Commissioners at Salem, Mass., from the fact that was the port from which sailed those who founded the mission at the Sanwich Islands.

At the recent funeral of Deacon George Sterling, of the South Congregational church, Bridgewater, Connecticut, it was stated that for forty-five years he had never been absent from a preparatory lecture or communion service in that church, until the last recurrence of these occasions before his death.

The Pennsylvania Congregational Association held a meeting recently at Centreville, Pa. Rev. E. Y. Garrette, pastor of the church here preached on the occasion. Reports of his congregation represent additions every communion. Rev. Mr. Garrette was elected one of the delegates to the National Council, which meets at Oberlin, Ohio, at which important interests bearing upon the body will be discussed.

The fifty-seventh session of the Seventh Day Baptist General Conference, was held at Adams Centre, New York, not long since. Among the important measures was a determination to celebrate the two hundredth year of the existence of the denomination in the United States at the next session of the Conference. Last Conference the majority of a committee reported in favor of enforcing the "close communion" rule. This year the majority of the same committee, by *permission*, submitted a report in favor of tolerating open communion. Finally, the whole subject was referred to a special committee, with instructions to receive essays on both sides of the question, and publish them all in book form for distribution among the people of the Church.

It is stated that some of the records of Christ church, Savannah, Georgia, founded by John Wesley, when he came to this country as a missionary of the Church of England, one hundred and forty years ago, are still in existence in his handwriting.

A correspondent of the *Interior*, an influential Presbyterian paper published in Chicago, in discussing the causes of the success of Methodism, and very ably, too, enumerates extempore preaching; attention to the poor; the itinerancy; its earnest, bold, aggressive spirit, and its system of thorough supervision. The *Western Christian Advocate*, one of the largest weeklies of the Methodist Episcopal Church, claims that the success of Methodism does not result solely, or even mainly to its methods and form of organization, rather than to its peculiar theology.

It hardly seems possible that the Millerites are flourishing, and yet strange enough, according to the *Advance*, the Millerites are prospering in New England, chiefly in Massachusetts. There are one hundred and fifty places for holding regular meetings in New England.

The *Rushville Republican*, of Indiana, says three things are needed in that place: "A big freshet to wash away the filth, a big revival, and more quinine."

It is confidently announced by a Chicago religious journal that the Southwestern Baptist Publication House, has failed, having exhausted its capital of sixty thousand dollars in about two years.

The National Association of Local Preachers of the Methodist Episcopal Church, will hold its seventeenth annual session, at Indianapolis, Indiana, commencing Saturday morning, the 21st inst. The "Pan Handle" Railroad will issue excursion tickets to delegates and visitors, on presentation of an order furnished by W. H. Kincaid, Lock box 367, Pittsburgh, Pa., who will respond to all proper calls by letter or in person.

The Rev. W. H. Reid, a member of the Northern Presbytery of the Reformed Presbyterian Church, has connected himself with the Princeton Presbytery of the United Presbyterian Church. It is not a year and a half since Mr. Reid voted in the General Synod of his church against union with the General Assembly of the United Presbyterian Church. But the progress of the spirit of union cannot be impeded. The United Presbyterian Church is fast absorbing the ministry, and in some places the members and congregations of the Reformed Presbyterian Church.

Proclamation by the Governor.

EXECUTIVE OFFICE,
HARRISBURG, October 11, 1871.

Fellow Citizens of Pennsylvania.: A calamity without parallel in the history of our country has befallen the prosperous and beautiful city of Chicago. More than half of that great city, whose matchless enterprise and growth had made it at once the metropolis of our own Northwest and the wonder of the civilized world, now lies in ashes. On the verge of winter, one hundred thousand of her people find themselves homeless and destitute of food and clothing. While the hearts of the American people are profoundly moved in contemplating the situation of the sufferers, and means of relief are being provided in every section of the country, I am confident that you will not permit yourselves to be excelled upon an occasion which so imperatively calls for the exercise of fraternal sympathy and Christian generosity.

The residents of the unfortunate city, whose property has escaped destruction, will no doubt promptly hasten to the rescue, and exert themselves with even more than their characteristic liberality and munificence. But their utmost endeavors will be totally inadequate to the demands of the dreadful exigency. You—the people of Pennsylvania—were never more prosperous in business, nor blest with greater abundance than at the present moment. Let your own merciful exemption from suffering, therefore, and the rich blessings with which a bountiful Providence has endowed you, plead with you effectually, in behalf of your most unfortunate countrymen.

The Pennsylvania railroad company kindly offers the facilities of their road, free of charge, for the transportation of all such supplies as are needed for the relief of the sufferers; and, acting in the same spirit, I anticipate with grateful pleasure an appropriate response from every city and town and home in this favored Commonwealth.

JNO. W. GEARY,
Governor of Pennsylvania.

THE SUBLIME AND BEAUTIFUL.

No grander or more sublime subject can engage the attention of man than such an one as tends to the amelioration of suffering and pain.

The cure of Consumption, not only in its incipiency, but in its advanced stages, has been cured by DR. KEYSER'S LUNG CURE. Sometimes the Lung Cure will do this alone; it will always do good. Sometimes the Doctor supplies other medicines with it to meet peculiar indications of the system. In his large medicine establishment are to be found all the fine medicines known, and an experience of nearly half a century has enabled the doctor to know how to use them.

Being a graduate of two schools of medicine, to which he has added over twenty-five years of experience, together with a daily reading and practice in chronic diseases, with special attention to those of the lungs, it would be a matter of wonder if he did not know the treatment of such cases to a more than ordinary extent. His pamphlet on chronic lung diseases, sent free whenever it is ordered, discourses more fully upon the subject than could be allowed in any newspaper article. Where your druggist does not keep Dr. Keyser's Lung Cure, 4 bottles will be sent by express for $5. Single bottles $1.50 at the Doctor's Medical Office, 167 Liberty street. Office hours from 10 A. M. until 1 P. M., and from 3 until 6 P. M., and Saturday's at night until 9.

Help! help! cries the blood, I am impure. I know it, says the skin, for I am covered with blotches, pimples and sores. Bring up the Samaritan's Root and Herb Juices.

THE WARNING HAS BEEN HEEDED.

Since the exposure of the attempts made by certain unscrupulous local dealers, to palm off their coarse astringents, made from cheap and impure materials, in the place of the great national tonic, Hostetter's Stomach Bitters, public opinion has set strongly against these empirics and their preparations. Their occupation is gone, or soon will be. When the light is let into deception it soon wilts down. Persons who trifle with their own health, by using unknown preparations, with no guarantee to sustain them when an established specific, proven by twenty years experience to be exactly what it is claimed to be, is within their reach, are sure to repent their temerity. Many have done so in this instance, but it is hoped that the truth plainly spoken has arrested this evil. In the meantime the demand for the leading protective and restorative medicine of America was never so great as it has been this season. From the fever and ague districts of the West, South-west, and South, it is literally overwhelming, and it may be said of the advices from all parts of the country of the cures it is effecting in dyspepsia, billious complaints, and chronic constipation, that "their name is legion." Everywhere the sick and feeble seem to have realized the importance of "holding fast that which is good," and of avoiding what is spurious and dangerous.

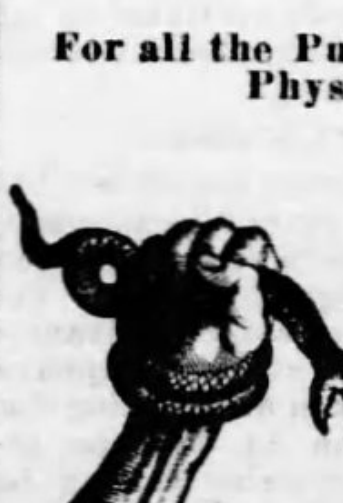
Ayer's Cathartic Pills,
For all the Purposes of a Family Physic, curing



Costiveness, Jaundice Dyspepsia, Indigestion Dysentery, Foul Stomach, Erysipelas, Headache, Piles, Rheumatism, Eruptions and Skin Diseases, Biliousness, Liver Complaint, Dropsy Tetter, Tumors and Salt Rheum, Worms, Gout, Neuralgia, as a Dinner Pill, and Purifying the Blood, are the most congenial purgative yet perfected. Their effects abundantly show how much they excel all other Pills. They are safe and pleasant to take, but powerful to cure. They purge out the foul humors of the blood; they stimulate the sluggish or disordered organ into action, and they impart health and tone to the whole being. They cure not only the every day complaints of everybody, but formidable and dangerous diseases. Most eminent clergymen, most skillful physicians, and our best citizens send certificates of cures performed and of great benefits they have derived from these Pills. They are the safest and best physic for children, because mild as well as effectual. Being sugar-coated, they are easy to take; and being purely vegetable, they are entirely harmless.

SWISSVALE
Pennsylvania Railroad,
AUCTION SALE.
The Best Yet!
FREE EXCURSION!
113 LOTS,
Beautifully Located,
CLOSE BY STATION.

On the premises, on MONDAY, October 16th, on arrival of the train at Swissvale that leaves Union Depot at 10:20 A. M.,

113 LOTS

almost perfectly level, and all fronting on good wide streets, and in a splendid neighborhood. Lots vary in size from 25 by 100 to three or four acres, and for beauty of location are unsurpassed.

Almost the entire plot is planted with choice fruit of all kinds and what is not planted with fruit is beautiful natural forest groves. Although so many lots have been offered this season there has been none offered that will compare with these in every respect. The Railroad and the good character of the neighborhood are established facts, and persons buying here know just what they are doing and do not have to depend upon uncertainties. Persons wanting to secure a home on line of most popular Railroad, and in a first-class neighborhood, should not fail to attend this sale.

The great number of accommodation trains on the Pennsylvania Railroad, running at almost all hours, the first leaving in the morning starts at 6 o'clock, and the first train arriving in the city reaches the Union Depot at 6:20 A. M., and the last accommodation train leaves the city at 10:50 P. M. and arrives at 11:10 P. M., makes property on the line of this road more desirable than on any other centering in the city. A free excursion train will leave the Union Depot at 10:20 A. M.

Terms easy and will be made known on day of sale. For information, inquire of

Important Sale
OF
REAL ESTATE.

By order of the Trustees of Thomas Bakewell, in Bankruptcy, will be sold by auction, on the premises, WEDNESDAY, October 18th, at 3½ o'clock P. M., that valuable lot of ground situated in the Fourteenth ward, City of Pittsburgh, adjoining the furnaces property of Jones & Laughlin, containing about ten acres in all, having a front of 300 feet on both sides of the Connellsville railroad, also, on the river, making this property very desirable for manufacturing purposes, or for sub-dividing. The special attention of capitalists should be called to this important sale. Train will leave Connellsville depot at 3.15.

AUCTION SALES.

68 CITY LOTS—LAUGHLIN'S STATION, on Connellsville Railroad. Cottages Large Grounds, &c.

SATURDAY AFTERNOON, October 14th, at 1 o'clock, on the premises, will be sold 68 City Lots, at Laughlin's Station and Frankstown, on Connellsville Railroad, John R. Bingler's plan.

These Lots are beautifully situated in the Twenty-third ward, Pittsburgh, within 2⅜ miles of the Court House, and in the midst of handsome improvements, with every convenience and comfort of city life. They are 22 and 24 feet front, by varying depths from 100 to 130 feet, surrounded by 50 and 60 feet avenues, in immediate adjacency to Eliza Furnaces, Pittsburgh Bolt Works and Frank's Glass Works, yet in a beautiful valley, free from the smoke of manufactories.

Also, Suburban Grounds and Improvements, which comprise one plot of nearly an acre, cultivated with choicest Fruit and Ornamental Trees, Dwarf Pears, Small Fruits and Shrubbery. The improvements are a fine Brick Cottage House of 8 Rooms and Basement, Summer Kitchen and Spring House.

An adjoining Lot of 69 perches has an abundance of choice Fruits and Flowers.

Another large adjoining Lot, under finest ornamental cultivation, has a two-story Frame Cottage of 5 Rooms and Basement Kitchen, a two-story Stable with stone basement, and Well of finest Water.

These beautiful situations overlook the Monongahela river, Birmingham and adjacent boroughs, sweeping the entire south side view of the Monongahela valley; also commanding the site of the proposed City Park. Many of the smaller lots contain Fruit Trees, and the entire sale offers unusual attractions for every class of city buyers.

A Free Excursion Train will leave the Connellsville Depot, foot of Grant street, at 1 o'clock, P. M. on the day of sale. Terms of sale—one-fifth cash; balance in five equal annual payments. $20 of the cash payment to be made on each lot at time sale.

PROPOSALS.

PROPOSALS FOR
Iron-Frame Barrack Bunks.

QUARTERMASTER GENERAL'S OFFICE,
WASHINGTON, D. C., Sept. 8, 1871.

SEALED PROPOSALS in duplicate, with copy of this advertisement attached, will be received at this office until 12 o'clock, noon, the 20th day of October, 1871, for the manufacture of such number not exceeding 12,000 of iron-frame, single barrack bunks, as may be required for the use of the U. S. army during the present fiscal year, in accordance with the two patterns adopted by the War Department.

Plans and specifications of the adopted patterns may be seen at this office, and at the offices of the Depot Quartermasters at New York, Philadelphia, Boston, Louisville, St. Louis, Chicago and Pittsburgh.

Proposals will state distinctly at what point the bunks will be delivered to the officers of the Quartermaster's Department for transportation; the price per bunk complete, as also for iron-work complete, but without the wooden slats.

The right is reserved to reject all bids offered, as also to contract for such number of each or either pattern as may be deemed advisable by the Quartermaster General.

Each bid must be accompanied by a guarantee of at least two responsible persons that in case the bid is accepted, and a contract entered into, they will become sureties, in a sum equal to one-fourth of the amount of the contract, for its faithful fulfillment.

Proposals to be endorsed "Proposals for Iron-frame Bunks," and addressed to the Quartermaster General of the Army, Washington, D. C.

M. C. MEIGS,
Quartermaster Gen'l, Bvt. Maj. Gen'l, U. S. A.

A print showing the pattern may be seen at the office of the GAZETTE.

Finance and Trade.

NEW YORK, October 13, 1871.

Gold dull and steady at 114⅝@114¾. Loans were made from ⅛ to 1-64 per day for use, and late in the day from 2 to 6 for carrying. Clearances $83,000,000. Governments dull and advancing in some issues at ⅛@¼; closed feverish this morning; subsequently stronger, [illegible]. Stock Exchange presented an animated scene during the morning, and the volume of business was large in railway speculation and opened with a buoyant feeling, and prices advanced from 1 to 3 per cent., but the announcement that a large operator in Reading and Philadelphia had failed precipitated the market into a state of depression, and the early improvement was lost. Reading was the weakest, and declined to 100⅛ during the afternoon, and it was rumored that Vanderbilt had loaned some leading operators five million dollars, which started the market up once more, and the highest prices of the day were made. The market at the close was strong and higher; the improvement ranged from two to six per cent., and was most marked in Reading, Lake Shore, New York Central, Rock Island, Ohio and Western Union. The dealings in Reading were very active at the close, and large blocks of stock changed. The run on the Third Avenue Savings Bank has ceased, and a portion of the money withdrawn is being returned to the bank. Money easier at 7 for currency and 7 for gold. State bonds very weak, Tennessee and new South Carolina leading in the decline.

Sterling Exchange 108.

GOVERNMENTS—Coupons of 1881, 115¾; 5-20's 62, 114¾; do '64, 114¾; do '65, 114¾; do new 112¾; do '67, 112¾; do '68, 112¾; 10-40s, 108¾; currency 6s, 110¾.

STATE BONDS—Mississippi, 92¾; Tennessee, old, 65; new, 64¾; Virginia new, 68; do old, 68; North Carolina old, 38; do new, 20.

MISCELLANEOUS.—Western Union Telegraph, 55¾; Quicksilver, 16, Mariposa, 1; do preferred, 1½; Adams Express, 80¾; Wells Fargo do, 50; American Merchants Union do, 52; United States do, 49¾; Pacific Mail, 45¾; N. PITTSBURGH MARKET.

OFFICE OF THE PITTSBURGH GAZETTE,
FRIDAY, October 13, 1871.

ASHES—Common Soda ash, 4 cts; refined do, 4½@4¾; Pearls, 9¾; Pots, 7¾; Nitrate Soda, 4¾@5¾.

APPLES—We can report continued liberal arrivals, but, with no falling off in the demand, prices are fully maintained, $2,50@3,00 per bbl for fair to good, and $3,50 for prime, that is, in a jobbing way. Car load lots, of course, would not bring these quotations by 25, perhaps, 50 cts per bbl.

BUTTER—Continues very dull and the stock, particularly of the lower grades, is accumulating. We can report sales of good to prime roll at 18@20.

BROOM CORN—The stock in this market is pretty well reduced, and holders are indifferent about offering at present, as the prices are unsettled.

BEANS—None in market scarcely, and there is some inquiry; prime navy may be quoted nominally at $2,00@2,25.

BEESWAX—Quoted at 30@32c.

CORN MEAL—is very quiet and the demand is mainly of a retail character; may be quoted in small lots at 85@90 cts per bushel.

CEMENT—Louisville, $2,00@2,10 per bbl. Rosendale, $4,00@4,50; Calcined Plaster, $4.25@4,50.

CIDER—The market is quiet and unchanged at $4@5 per bbl.

CANNED FRUITS—Quiet and unchanged.

CRANBERRIES—Sales of Jersey cultivated at $11 per bbl, and Sackett's Belle Berries at $17@18.

CARBON OIL—Is firm but without quotable change; standard brands, 23@23½ in car load lots—usual advance in a small way.

CHEESE—Is steady for the present, but the future is looked upon with apprehension; factors are still adhering to the recent sharp advance, while buyers are disposed to hold off. We continue to quote at 15½@16 for prime New York Goshen; 15@15½ for prime Ohio Goshen; 14@14½ for Factory, and 13@13½ for Dairy.

CHESTNUTS—Are in good supply and generally reported weak; we reduce our quotations to $3,50@4,00 per bushel. Private advices from Philadelphia quote at $2,50@3,00; Cincinnati, $4,00@4,50. The crop is unusually large this year.

DRIED FRUIT—There is considerable inquiry for Peaches (prime halves) and we are reported sales at 9½@10 cts. Quarters quoted at 7@7½; mixed 8@8½. Nothing doing in apples—our market as yet is bare.

EGGS—The market continues steady with a demand fully up to the supply, and prices are fully maintained, 28@30—as yet but comparatively few sales above 28.

FLOUR—Is firm, and the demand is better, as is nearly always the case when prices are tending upward. Good spring extras, $7.00@7.25; choice Minnesota (old stock) baker's $7.75@8.00; good to choice red winter flour, $7.25@7.50. The arrivals seem to be on the increase again, but the stock in this market is comparatively small.

GRAIN—The grain markets are steady and moderately active; though the excitement which prevailed for a time, brought about by the large amounts of grain supposed to have been destroyed at Chicago, has pretty well subsided. Later advices would indicate that the loss is not near so bad as first reported; only 6 out of the 20 elevators having been destroyed, and the total destruction of grain is estimated at 1,400,000 to 1,600,000 bushels against 5,000,000 to 6,000,000, as at first reported. We can report a steady milling demand for Wheat, and with continued light receipts, the mills are taking about all that offers at quotations, $1.45@1.47 for red, and $1,50@1,52 for white. Oats very firm and higher, and the offerings are comparatively light; we now quote mixed at 45@46, and white at 47@48. Rye is quiet but steady; may be fairly quoted at 90@92 for western. Shelled Corn, on spot, is in demand and may be fairly quoted at 70 cts in bulk and 72 in sacks; we are reported sales of some 8 cars in bulk to arrive, at 68. Barley is quiet and unchanged; 80@85 for fair to prime spring, and 85@90 for fall.

Following sales were made on change to-day:

1 car prime Red Wheat, $1.46.
1 " Rye, in bulk on track, 90.
1 " Rye, in elevator on private terms.
1 " White Oats, sacked on platform, 48.

GROCERIES—Coffees continues very firm and with a steady jobbing demand and light receipts, and very low stocks, the importers have it all pretty much their own way, and are still putting prices up almost every day; otherwise, the market presents no new features not previously noted. Stock in first hands, as made up by Wm. Scott & Son of New York, 41,258 bags, as follows: Galveston, 4,000 bags, Mobile, 4,000; Savannah, 2,000; Baltimore, 5,369; New York, 25,889. Molasses continue quiet; the demand is comparatively light and there is a strong pressure all over the country to realize—dealers want to get rid of their old stock before the new crop is ready to move. Sugars continue dull and weak, though there is no quotable change in prices; stock of raw in New York, embraces 56,715 hhds; 73,395 bxs; 311,383 bags, and 6,750 melado.

PETROLEUM MARKET.

OFFICE OF THE PITTSBURGH GAZETTE,
FRIDAY October 13, 1871.

The petroleum market continues dull and neglected, and devoid of anything particularly new or important. Refined continues weak and neglected, and crude is also dull but unchanged; it seems to make no difference how much refined drops, the producers are able to keep up the price of crude, and they do it regardless of consequences. October refined is down to 24 cts against 24¾@24¾, three days ago, yet there is no decline whatever in crude; it was quoted at Parker at $4,67@4,70 then and these quotations are still adhered to. Nothing doing in future deliveries of refined, and there seems to be no established quotations; however, November and December are not worth any more, if as much, as October.

PITTSBURGH IRON MARKET.

OFFICE OF THE PITTSBURGH GAZETTE,
FRIDAY, October 13, 1871.

The market for pig iron continues strong and with a good demand, light receipts and reduced stocks, holders are very firm and another advance has been established; good forge irons, as compared with last week, are up fully one dollar per ton, and may be fairly quoted at $36. The arrivals both from the east and west continue meagre, and, furthermore, the great proportion of that now arriving is being placed on former contracts, and, in consequence, the offerings are very meagre, and, besides, the furnacemen do not seem inclined to sell much more until they have filled all their old contracts, as they seem to be impressed with the belief that there is no prospect of a decline, while, on the other hand, there may be a still further advance. We understand that both the mills and foundries, are taking all the good irons that offer at the advance, and, as already intimated, the supply is not equal to the demand.

There is also a good demand for finished irons; orders are reported as coming in freely from both east and west, and all the mills seem to be taxed to their utmost capacity. An advance has been established within the past week of a quarter of a cent per pound or five dollars per ton; the card rate is now 3¾, instead of 3½, and, according to present indications, a still further advance is not improbable.

Following is a detailed report of the sales of pig iron for the week ending to-day:

A regular Graduate of Medicine, as his Diploma at office shows, has been longer engaged in the treatment of Venereal, Sexual and Private Diseases than any other Physician in Pittsburgh.

Syphilis, Stricture, Orchitis, all forms of Hernia and Rupture, all Urinary Diseases and Syphilitic or Mercurial affections of the Throat, Skin or Bones are treated with unparalleled success.

Spermatorrhœa, Sexual Debility and Impotency, the result of self abuse in youth, sexual excesses in maturer years, or other causes, which produce some of the following effects, viz.: Nervousness, debility, blotches, dizziness, dimness of sight, confusion of ideas, evil forebodings, aversion to society, loss of memory and sexual power, rendering marriage improper and life miserable, are permanently cured. Sealed pamphlet relating to the above sent for two stamps. Correspondence confidential; consultation free. It is self-evident that a Physician who treats thousands of cases every year must acquire great skill; many physicians knowing this, recommend patients to his care. Medicines sent everywhere.

Office Hours, 9 A. M. to 9 P. M. Sundays, 1 to 3 P. M.

RIVER NEWS.

The river has risen about an inch, under the influence of recent rains, with 14 inches in the channel. Weather clear and cool.

The Monongahela river packets seem to be doing a good business; they are getting about all the freight they can handle on the water, and are full of passengers every trip.

The John F. Tolle, Com. Kountz's mammoth stern-wheeler, is rapidly approaching completion; her engines and boilers are in place, and her smokestack, which is located near the stern, is now being raised. She resembles in many respects, the picture of Noah's ark.

Capt. Anawalt was down at the wharf yesterday making observations. He expects to start on his semi-annual trip as soon as there is water.

The E. H. Durfee, en route for New Orleans, was at Vicksburg on Thursday.

—The Sioux City *Journal*, of the 7th, says: The steamer Far West, from Grand River, arrived here at noon on yesterday, twenty-one and a half days from Sioux City. This time, considering the low stage of water and the high winds which have prevailed during most of the time since her departure from here, is pronounced a remarkable feat in up-river steamboat navigation. The Esperanza was twenty-five and a half days in making in making her recent trip to Cheyenne and return.

The steamers Miner and Ackley, which left this city on Thursday afternoon, were reported twenty-five miles above this city on yesterday morning. The boats started nearly together from this city, the Ackley leading the Miner only about eighty rods. A number of bets were made by a party of gentlemen at Eliot & Co.'s warehouse at the time of their departure, that the Ackley would retain her position as far as Yankton; but the Far West reports the Miner as leading the Ackley on yesterday morning by half a mile.

—The following circular has been issued by Supervising Inspector Houston of the 6th district to local inspectors. "All fire-plugs hereafter put in the boilers of steamers must be made in accordance with Rule 43, as adopted by the Board of Supervising Inspectors in June last. You will therefore see that all banca tin plugs used on board of steam vessels are made in conformity with the above rule, and the metal with which they are filled is of a uniform temperature, and that no certificate of inspection be signed by you until this rule is complied with in every particular.

—At a meeting of steamboatmen, at Cincinnati, on Wednesday, Capt. H. A. Jones presented a letter he had received from Capt. Sam. J. Hale, which spoke in very encouraging terms of the success of the committee with the Board of Supervising Inspectors. Capt. Hale advised that steamboatmen delay the further fitting out of their steamers until the adjournment of the special meeting of the Board of Supervisors, or until the committee returned to Cincinnati.

—The St. Louis *Democrat* says: By steamers Bee and Mollie Ebert we learn as follows of the Belle Lee: She lay right in the channel at head of Turkey Island, and yet above the lowest water. The Andy J. was previously aground on the same spot but got off and away. The Lee's passengers and baggage were on shore; she had out an anchor and stern line, and the indications were that she would abandon her trip.

—The Louisville *Courier* says: Captain R. S. Yerkes, yesterday, consummated the trade for the steamer R. C. Gray, thus securing one boat at least for the Arkansas trade. The price was $9 000.

—The Mary Poe stopped at the wreck of the Nick Wall; Capt. Poe went into it, took out her cylinder, and put it on the Poe in place of that boat's broken cylinder. The latter was brought up by the Mollie Ebert.

—Johnathan Warden says the Minnie is being made a new boat on the Marine Ways. The job on the Carrie V. Kountz is one of the heaviest ever performed by ways or docks about St. Louis.

—The owners of the little spring boat, building over at Dayton, Ky., have succeeded in getting their craft out of limbo, and are now proceeding with their work.

—An Evansville telegram, of the 8th, says: Captain Dexter has chartered the Mollie Ragon to take the Quickstep's place in the Cairo trade.

—Captain C. C. Pickett has sold the steamer Selma to the St. James Packet Company at New Orleans. Terms private.

—Mr. R. G. Shinkle, Secretary of the St. Louis Pilots' Association, is quite ill at his residence at Newport.

—The Kate Kearney was sold on 'Change, at St. Louis, on Tuesday. Capt. Bil. McPherson got her for $3,750.

—The Texas has been withdrawn from the Louisville and Cincinnati trade. She has laid up at Cincinnati.

LOUISVILLE

CEMENT.

The Best--The Cheapest.

The Cement has acquired the reputation as the first in the country in hydraulic strength and uniform reliability.

It is now in general use from the lakes to the Gulf, most of the public works in the West and South being constructed with it.

The mills at Louisville having been enlarged and improved, can supply any demand, and though the Cement has always, for 30 years brought higher prices than competing brands, it is from this time the determination of the manufacturers, in order to largely increase the sale and extend the use of their Cement, to furnish it in the principal markets at prices which make it the most available and economical for all classes of work.

The large capacity of this Cement for taking sand renders it much the cheapest that can be used for buildings of any kind.

At the reduced prices in Pittsburgh its cost is not much above common lime, which makes it unquestionably to the interest of owners and builders that the foundation of every good house should be laid in this Cement.

A large stock of fresh Cement has just been received by barges from Louisville, and is offered at greatly reduced prices by the following dealers:

LAING & McKALLIP, 347 Liberty street.

GENERAL AGENTS FOR THE

Johnstown Improved Hydraulic Cement,

This Cement is equal to any cement made in the United States, in many respects better than the Louisville Cement or the Rosendale, and decidedly better in all respects than the Uniontown or Akron Cement. It has a smaller amount of shrinkage, sets gradual, bears as much sand as any cement made, and gets as hard; stands frost well it has all the qualities that hydraulic cement should have. The facilities for getting this cement is greater than all others in this market. less freight and fresher, which is an important matter Having but a short distance to ship we can there fore sell cheaper than any other in the market.

Masonic.

The celebration of the quarter centennial anniversary of the organization of St. Cyprian Lodge, A. Y. M., came off in Pittsburgh, Thursday October 12th, and was witnessed by thousands of citizens who thronged the sidewalks along the route of procession. Under the direction of Chief Marshal Robert W. Bell, the column was formed on Fulton street, the right resting on Wylie in the following order: The Great Western brass band, four carriages, two of which were open and drawn by four horses, contained the Grand Lodge of Pennsylvania, the orators, Grand Masters of the States of New York and Pennsylvania, D. D. G. M. T. W. Fairfax, Wm. Scroggins Jr., of Baltimore, Rev. John Peck, and National Grand Master R. H. Gleves. Following these came delegations from Purity Lodge of Altoona, Fairfax Lodge of Washington, represented by S. W. C. Dorsey and others, Western Star Lodge, of Brownsville and Eastern Light Lodge of Meadville, represented by W. H. Messick and Charles Bosberg. Next came Mount Moriah and St. Cyprian lodges of Pittsburgh. After completing the route of parade, an imposing meeting was held at Lafayette Hall, at which Grand Master William Cooper, of Philadelphia presided. After a few appropriate remarks, Mr. Cooper introduced to the audience the N. G. M. Richard H. Gleves, who in a speech replete with interesting facts, gave the history of the establishment of Masonic Lodges of colored men in this county. Prince Hall Lodge of Boston established by warrant from the Grand Lodge of England and another lodge established by a warrant of the Grand Lodge of Germany were referred to and an interesting fact connected with their organization recited. He also gave the history of the national compact. The Masonic re-union and grand banquet at the same place in the evening was a great success. The great Hall was well filled at an early hour. At 9 o'clock, Grand Master Cooper called the meeting to order. R. H. Gleves N. G. M., then addressed the vast audience. He was followed by Rev. D. E Asbury, S. A. Neale, P. G. M. S. Van. Bickle and the Rev. N. H. Turpin, G. M., of the State of New York. Dr. Jonathan Davis, the accomplished Secretary of the National Grand Lodge was present, but owing to ill-health, did not speak. The banquet of which, some 250 persons partook, was a splendid affair. It was prepared by those well known caterers and confectioners, Messrs Miller & McCullough. The W. M., Thomas H. Lvles, made the welcome address to the distinguished guests. Speeches were made by the G. S. W., L. Googins, and the P. M., Jas. Griggs and others. The poem, is the production of that fine scholar, Prof. Geo. B. Vashon, who is now living in Washington City, came too late to be read at the meeting. As hundreds desire to see it, we shall hereafter publish it.

Underwriters—Arrott & Lockhart.

Having previously referred to the effect of the Chicago disaster on other Companies, it gives us great pleasure to publish to-day the advertisement of Messrs. Arrott & Lockart, exhibiting the various institutions which they represent in this city, as coming out of the fiery ordeal with their permanent capitals unimpaired, and their ability to pay all their losses out of their accumulated reserves. There could not be better evidence than this, of the prudence and judgment with which these companies have been managed, and Messrs. Arrott & Lockart are justly proud of their official warrant for the flattering exhibit, their names and location, which deserve to be noted and remembered, are as follows:

Continental Fire Insurance Company, N. Y.

Niagra	do	do	do
Lorillards	do	do	do
Yonkers	do	do	do
N. American	do	do	do
Hanover	do	do	do

Queen do of London and Liverpool.

The first six of these companies pay all their Chicago losses out of their reserves and have left an aggregate capital unimpaired of $5,530,000. The "Queen" has a capital of $10,000,000 and had *no risks in Chicago*. With such strength as this the companies named may well be pronounced impregnable. No one desiring absolute protection need hesitate to seek it at the agency of Arrott and Lockhart, who will be found hereafter, as always heretofore, ready to adjust and pay all losses without cavil or vexatious delays.

Amusements.

PITTSBURGH OPERA HOUSE.—A very fair audience assembled last night at this place on the occasion of the presentation of the Marble Heart. Mr. Lawrence Barrett sustained the dual part of the Sculptor in his usually fine manner, and was admirably well sustained. Mr. J. N Gotthold divided with the favor of the house in his capital rendition of Diogenes. His conception of the character was true and pleasing, and his acting was graceful and refined. Mr. Gotthold appears to improve nightly, and we venture the prediction that he will yet rank among the most brilliant actors on the American stage. This afternoon "Rosedale." To-night, "The Robbers."

FIFTH AVENUE OPERA HOUSE was very well filled last night, and the entertaining Chapman Sisters appeared to very good advantage. This afternoon a fashionable matinee will be held, and to-night an exceedingly fine bill will be offered.

National Life Insurance Company.

The following letter fully explains itself, and will be good news to the many insured in this worthy and reliable company:

CHICAGO October 10, 1871.

H. C. Bowers, Pittsburgh, Pa.

DEAR SIR: Thank God the National Life Insurance Company of Chicago is all right. The books are all saved. Our loss will not exceed $20,000. Our capital unimpaired with about $30,000 surplus. Our last month's business exceeds that ever done by any insurance company in the United States. Office is removed to the President's new private residence, near Twenty-second Street Depot, No. 2 Calumet avenue. Yours Truly,

H. G. TRED, Secretary.

Sound.

We direct attention to the card of Mr. George W. Dean in another column, notifying the public of the solvency of the insurance companies represented by him. He has the Washington Insurance Company of N. Y., the Union of Bangor, Maine, and the Enterprise of Philadelphia. The officers of these companies have informed Mr. Dean, and through him the public that after they have met their losses at Chicago they are yet perfectly sound, and prepared to accept new business. This is very gratifying information, and we congratulate our young friend, that he has such deserving and strong companies on his books.

A Live Chicagoan.

Mr. J. H. Ormand, publisher of the *Art Review* in Chicago, passed through this city yesterday, bound for New York to provide there all things needful for immediately resuming his publications. He was one of those left destitute by the great fire, of everything but his life, health and indomitable energy. He regrets his losses, most of all, his list of subscribers to the *Art Review*, and desires us to express the hope that they will all furnish him anew with their postoffice address, in order that the *Review* may revisit them as quickly as possible.

Obituary.

It is our melancholy duty this morning to announce the death of an estimable young lady—Miss Alice L. Woodhouse—who died at the residence of her brother-in-law, James M. Kirby, in Temperanceville, last evening. She was the daughter of the late Atcheson Woodhouse Esq.—some ten years since a merchant in Allegheny, and the sister of Mrs. Bartley T. Campbell. The deceased had many friends who will miss her sadly.

Arm Broken Again.—James Murray, folder at the *Freiheits Freund* office, was taken home from the *Mail* office yesterday afternoon with another broken arm. We say "another broken arm" because James has had a rough time of it in way of fractures, this being the fifth time he has suffered an injury of this character. A short time ago, within a short space of time, his right arm was broken three times. At a still more recent period his left arm was broken, and yesterday it was broken again. The latest fracture occurred while Murray was playing with some boys in the *Mail* press room, by his falling down upon a piece of machinery.

Daring Robbery.—Yesterday afternoon Mr. Purchuse, who keeps a grocery at the corner of Cherry and Virgin alley, came to the Mayor's office and lodged an information against John Fritz and J. Rudiker for larceny. The prosecutor alleges that while standing at the door of his establishment with a sum of money in his hand, one of the accused approached him, snatched the money and ran down the alley. Mr. Purchuse pursued the robber, and during his absence from the store the other walked in and robbed the till. The entire amount stolen is forty dollars. Warrants were issued.

Leg Broken.—Yesterday morning a young son of Colonel John H. Stewart, was thrown from a horse at the corner of Penn and Sixteenth streets, and had his leg broken. The lad was with the school procession, and it is said a drayman ran against the horse upon which the boy was riding, thus causing the accident. Dr. Dickson and Ritter attended to the lad's injuries.

To-night, The Escaped Nun.—Third Lecture on a new subject, "The Mysteries of the Confessional." Proceeds for the benefit of Chicago

Dressing.

To dress a man comfortably is one thing; to dress him fashionably another, and to combine the two, a desideratum which can only be obtained at the house of Wm. Hespenheide & Co., No. 50 Sixth street. This firm has always been most happy in their selection of goods, and in the make-up of stylish suits for business or dress; in this respect they challenge comparison. It should not either be overlooked that their prices are reasonable and suited to the pockets of all, be they rich or poor. Let all who want good clothing go to Hespenhide's.

Trimmings.

Ladies drop into Julian Morrow's, No. 73 Market street, to-day and look at the latest fashions in fancy goods, trimmings and general varieties for the dress and toilet. A fresh stock of goods for the fall season just received, all the latest notions and most fashionable styles, in color, quality and make up. This is the fashionable ladies trimming store in the city. The goods are always fresh, the prices always reasonable and everything of a quality that will be warranted. The place is No. 73 Market street.

It Will Pay You to Call

at the headquarters for bargains, which is at Evans' Department Store. New gooods just opened. Choice 10 cents, 25 cents, 50 cents, 75 cents, $1,00, $1,50 and 2,00.

Success

Has crowned the efforts of S. Hamilton & Co., proprietors of the new Music House, 51 Fifth avenue, and we do not see how it could be otherwise, as they by their untiring energy have merited it. Their stock of Pianos and Organs is the largest in the city, consisting in part of Parlor, Library and Church Organs and Pianos from the first manufacturers of the country. The Taylor & Farley Organs, for which they are the sole agents, are conceded by competent judges to be the sweetest toned Reed Organs made, and if we can judge from the number sold by this firm monthly, they are certainly appreciated by the music loving community of this vicinity. Our friends about purchasing instruments will do well to call before selecting, and witness the correctness of our remarks. They have also a large stock of second-hand Pianos, Organs and Melodeons, from $25 to $200. These, as well as the new ones, will be sold on the most accommodating terms. Weekly, monthly or quarterly payments taken. Every instrument fully warranted at

CHICAGO RELIEF.

The Work Yesterday—The Contributions Arriving—Councils to Take Action To-day—The Progress in Allegheny—Coal and Provisions Sent—More Meetings To-day.

"Relief for Chicago" is still engaging the attention of the people, and active efforts are being made everywhere to keep up the supplies of money and provisions. The responses are as liberal as at first and there seems to be no abatement in the general interest manifested.

THE TRUSTEES' MEETING.

Yesterday morning another meeting of the Relief Trustees was held at the Mayor's office, Mayor Brush in the chair, Josiah Cohen, Esq., Secretary.

The following gentlemen were appointed as a Committee on arrivals, transfer and subsistence of sufferers from Chicago, with power to draw on the Mayor for expenses, and also to add to their number: Messrs. John Moorhead, W. P. Weyman, Benjamin Cohen, Joseph Dilworth, James T. Brady, Reuben Miller, Jr., and J. W. Riddell.

Mr. Harper, from the Committee on Banks and Bankers, reported a donation of one hundred dollars from Judge Agnew, and it was ordered to be placed among the benefactions from that committe. Adjourned.

THE U. P. MINISTERS

held a meeting and decided that a collection would be taken up in each church to-morrow and an appeal also be made for donations of clothing &c to be left at the Book Rooms, 93 Third avenue, also that Rev. J. M. Baugh and the session of the First U. P. Church Chicago be the agents to distribute the goods sent.

Collections and donations of money may be left with the officers of the meeting—Rev. John G. Brown, D. D., Rev. J. S. Sands, or Rev. S. Collins, 93 Third avenue.

PITTSBURGER MISSING.

Mr. Samuel H. Rial, formerly proprietor of of the Merchants hotel in this city, is supposed to have been one of the victims of the Chicago conflagration. He had leased a hotel in that city, and had gone there accompanied by his daughter to commence business. When the fire was raging, Mr. Rial left his daughter to look after his property, and since that time nothing has been seen nor heard of him. Miss Rial returned to the city yesterday morning, and she and the friends of her father are fearful that he has fallen a victim to the flames.

THE APPROPRIATION ORDINANCE.

The Finance Committee of Councils have held a meeting and adopted the draft of an Act of Assembly authorizing the city to increase her indebtedness, assume and pay the loan assumed by individuals of the city, in a sum not exceeding $100,000, together with such interest as may accrue thereon.

SEC. 2. Gives the Councils authority to levy and assess a tax upon taxable property for the liquidation of said indebtedness.

SEC. 3. Empowers the Councils to borrow the amount stated.

SEC. 4. Provides that the tax shall be known as the Chicago Relief Tax, and shall be collected in like manner, as other taxes are now collected.

The Chairman then suggested that Councils be called together and that the bill be passed finally.

After some discussion the Chairman offered the following resolution:

Resolved, That the members of the Finance Committee shall raise, on their individual obligations, the sum of $100,000, and appropriate the same to the relief of the sufferers by the fire in Chicago. The obligations so given to be carried until authority be obtained from the Legislature for the payment of the same by the city.

[The proposition was that four of the members give their note for $25,000 and the others endorse the paper.]

After some discussion the resolution was amended so as to read "that the Finance Committee shall be requested to raise, &c.," and a motion made to have the President of Council call a special meeting to consder the matter herein referred to.

The Committee then adjourned.

The Finance Committee has called a meeting of Councils for this afternoon at 2 o'clock to consider the act.

LADIE'S RELIEF SOCIETY.

The meeting was organized at 2 P. M., Mrs. Springer Harbaugh in the chair. Many of the churches were represented by their committees. Mrs. Caroline Bloomer was elected Treasurer. Purchasing Committee: Mrs. Samuel Jones, Mrs. George Thurston, Mrs. Jno. Harper, and Mrs. Wm. P. Bakewell. Cutting Committee: Mrs. Gen. Whitely, Mrs. Wm. K. Hart, Mrs. Bakewell, Mrs. Leonard, Mrs. Hurd, and Mrs. Josiah Reamer. The ladies are under great obligations to Mr. T. H. Eaton, who kindly offers the fine rooms above his store, with the use of all the machines. It was decided that they thankfully accept the offer of the rooms belonging to the Young Men's Christian Association. They will be open every day at 10 A. M. All persons are invited to come there and work. Mr. Fred B. Kenner, agent for the Keystone Sewing Machines, sent to our room six machines and an operator. Three women and three children who arrived to-day from Chicago, were taken to the boarding house for working women in Allegheny. We are grateful for material received to-day, and all donations will be left at our rooms early to-morrow.

MARTHA M. UMBSTAETTER, Sec'y.

SAVED.

The celebrated Rothermel painting of the Battle of Gettysburg, which has excited so much attention, was not destroyed in the Chicago fire, but was saved. Had it been lost the world of art would have suffered greatly, as it is regarded as the master work of the period. It is now on the way to this city to be exhibited under the auspices of the Pittsburgh Association.

ALLEGHENY.

THE EXECUTIVE COMMITTEE

held a meeting in the Mayor's office yesterday morning at ten o'clock, when it was decided to purchase one hundred cooking stoves. No other special business was transacted.

THE LADIES

Are still engaged in the work of making up clothing, and have their headquarters at the Rev. Dr. Swift's church. They earnestly solicit contributions of dry goods, and have made arrangements to quickly make up and ship all that is sent in. Thus far the contributions have not been as large as was expected.

STILL AFLAME.

Chief-engineer Crow received a dispatch stating that the coal-yards in Chicago were on fire, and asking permission for the engines to remain to help subdue the flames. He telegraphed them granting the request, and took the eleven o'clock train yesterday morning for that city himself.

CITIZENS IN COUNCIL AGAIN.

An adjourned meeting of citizens was held last evening in the Common Council Chamber—Mr. W. C. Cooper presided.

The chair reported that the Executive Committee had dispatched one car load of cooking stoves at 5 o'clock in the afternoon, and that another one would leave at 7 o'clock this morning. He also stated that the Treasurer reported that he had received up to the present time $11,460.33, against which there was bills to the amount of $4,000 unpaid.

Mr. W. M. Claney, who had had charge of the first car of provisions which left Allegheny city, having returned during the day, and being present, reported that the car had reached Chicago safely and that he had placed it in the hands of the Mayor of Chicago, who returned his heartfelt thanks for this, *the first car* load of provision from the East. He also presented the receipt of the Mayor of Chicago for the car.

Mr. Claney then gave a description of the condition and suffering of the citizens of Chicago. He also exhibited a copy of "Happy Hours," the first paper published in Chicago after the fire, which he proposed donating to the Library Association as a relic. A vote of thanks we returned to the gentleman for his labors.

Mr. A. Patterson reported that the teachers and pupils in the Fifth ward school had contributed $121 in money for the Chicago Fund, also that he had received $20, from W. H. Phelps.

Mr. H. R. Davis reported the following contributions in the Second ward:

Wm, Semple, $500; Graham & Spangler, $10; J. W. Hall, $50; J. C. Fawcett, $25; J. L. Gill, Jr., $10; A. P. Morrison, $5.

Mr. Roland D. Jones, from the Ninth ward, reported that he had paid over to the Treasurer $1,093.43, the amount of one days wages, donated by the workmen of the Superior Iron Mill. Also $1,000 received from Springer, Harbaugh & Co. He also said the workmen of several other mills intended donating one day's wages to the same purpose. (Immense cheering.)

Mr. Hastings reported the following contributions in the First precinct of the Third ward:

Third ward school children, $64.59; F. Slorence, 20.00; D. L. Smith, 10.00; Wm. Pane, 5.00; M. Steele & Son, 20.00; R. Robinson, 5.00; J. W. McGinnis, 20.00; James McKirdy, 20.00.

The following contributions were also received: Mrs. W. Hill, $5.00; George Osmund 5.00.

Mr. Leggate reported that a gentleman, a resident of Allegheny city, had given him the sum of $100 on condition that he would not divulge his name. It was cheerfully accepted and no questions asked.

A check from Mr. James M. Cooper for $200 was here handed up to the chair.

Mr. Hanna wanted to know whether the ladies were still making clothing.

Mr. Moore—they are at work on the clothing.

Mr. Claney—gentlemen I would state that the ladies of Chicago are busily engaged in making clothing, and it would be much better to send the cloth there than have it cut up here.

Mr. Francis then offered a preamble and resolution, commendatory of the action of Councils, in refusing to make an illegal appropriation and urging renewed efforts upon all, to collect $50,000 for the Fund in Allegheny city.

After considerable discussion, on motion of Mr. Moore the commendatory clause was stricken out and the remainder of the resolution adopted.

Mr. Claney suggested that the Executive Committee be instructed to announce that the services of twenty-five carpenters, who will go to Chicago to work there for two weeks or a month to assist in putting up barracks in that city, and donate their labors to the city, would be thankfully received and their free transportation and boarding guaranteed, and that all carpenters who were willing to devote two week for such a purpose be requested to hand in their names so that they can leave Allegheny on next Saturday. The suggestion was put in the form of a motion and carried.

Mr. Ed. Yeager, who had charge of the second car of provisions sent from Allegheny City being present, reported that he had returned to the city during the evening and that he had delivered the car to the authorities of Chicago and presented his receipt from the Mayor. A vote of thanks was returned to the gentlemen.

Mr. H. R. Davis stated that Mr. Semple had donated $500, which he was willing to give either in dry goods, blankets or in cash.

Adjourned until this evening.

WHAT IS NEEDED.

Yesterday morning Mayor Callow received the following dispatch from C. C. P. Holdon, President of Common Council, dated Chicago, 12th:

"Your car has just arrived. Will be unloaded to-morrow. Coal is very much needed; also, flour, beef, pork, bacon, vegetables, blankets, children's clothing, nails, &c. God bless you and your noble people."

MOST WORTHY ACTION.

In compliance with the following resolution of the employees of the Superior Rail Mills of Harbaugh, Matthias & Owens, of the Ninth ward, Allegheny:

Resolved, That we express our sympathy not only in words, but in deeds, by giving one day's wages to help the homeless and starving children of the deserted city of Chicago.

Their employes gave one days faithful work, which resulted in the handsome sum of $1,092.43, which has been duly handed over by Rowland D. Jones, Esq., to D. Macferron, Treasurer of the Chicago Relief Fund. At the same time the proprietors sent in the additional amount of $1,000. This was a noble donation, especially on the part of the employees and we are sure none of them begrudged the hard days labor which rolled up such a handsome sum for the suffering people of Chicago. All credit to such working men, and may their noble example be followed by all who rejoice in the dignity of labor. After the performance of such noble deeds all can feel better and put more faith in the goodness of their fellow beings.

Beautiful Scenery Along the P. R. R.

The Pennsylvania Railroad is noted for the many beautiful places and magnificent scenery on its line. We do not at this time propose to speak so much of the scenery as of one of the beautiful places on the line of the Pennsylvania Railroad a few miles from the city, and the one we particularly call attention to is *Swissvale*, which takes its name from Mrs. Jane G. Swisshelm—a woman whom is known to all Pittsburghers. Several years ago her attention was attracted to this beautiful spot, with its pleasant surroundings, when she there made her home and gave it the name of Swiss-vale.

Whilst nature has been so lavish in bestowing her gifts upon this place, art has been called upon to lend its aid in beautifying this lovely spot. A number of the wealthy business men of the city have in this vicinity made their homes, and built magnificent residences and beautified the grounds surrounding them.

But an opportunity is now offered for those who cannot buy a number of acres on the line of the railroads convenient to the city. Mr. W. S. Haven's beautiful grounds have been divided into lots varying in size from twenty-five by one hundred feet to three or four acres, and it is to be sold at public sale on the grounds on Monday, the 16th, on the arrival of the train that leaves the Union Depot at 10:20 A. M. This is an opportunity of securing a home convenient to the city on the line of a railroad that seldom, if ever, disappoints its patrons in the arrival of its accommodation trains, and should command the attention of all wishing to secure a home away from the dust and smoke of the city. A free excursion will be given to all wishing to attend this sale. Any information will be freely given by calling on C. H. Love, Real Estate Broker, 58 Fourth avenue.

OUR HIGH SCHOOL.

The Dedicatory Exercises—Young America in Procession—An Educational Gala Day—Along the Streets—At the Building—Interesting Addresses.

The magnificent new High School building near Cliff street, has been fully completed, and the citizens of Pittsburgh may take just pride in their now having the finest structure devoted to public educational purposes in the entire country. The imposing edifice is so situated as to command one of the finest views of our cities that may possibly be obtained, and in its plan and arrangement, is a model of perfection. Nothing that art could devise or science produce, to enhance the comfort or convenience of its occupants, or promote increased facilities for acquiring such instruction as it is designed shall be imparted within its walls, being found wanting. We have so often had occasion to refer to the plan and details of the building while it was in course of erection, that a description of the same, at this time, would be superfluous.

Yesterday was the day set apart by the Central Board of Education for the ceremonies of dedication, and every arrangement to make it a complete success had been thoroughly perfected by them, aided very considerably by the city superintendent, Prof. Luckey. The children of the different schools and all others connected with the affair, entered into it with great enthusiasm and no more beautiful sight, and at the same time a novel one, could have been witnessed than the happy faces and smiling countenances of the four thousand children, who, marching to the music of at least a dozen different bands, and continually cheered by delighted spectators all along the line formed

THE PROCESSION.

The formation of the line took place between nine and half past ten o'clock, along Wood street, the right resting on Water. The various divisions forming on the avenues, with the right resting on Wood.

Wm. R. Ford, Esq., Principal of the Springfield Public School, was Chief Marshal, and George P. Fulton, Esq., Principal of Highland School, and Mr. J. H. Crumb, Professor of Languages in the High School were Assistant Marshals.

At half-past ten o'clock the column was put in motion, countermarching on Wood street to Fifth avenue; the line of march then led up Fifth avenue to Wylie street, up Wylie to Fulton, and along Fulton to the High School. Two hours were occupied in passing a given point.

THE COLUMN

was headed by a party of uniformed police under command of Lieutenant Samuel Hager. The Great Western Band followed, and then came the Chief Marshal and his aids. The members of the Central Board of Education followed, and after these marched State Superintendent J. W. Wickersham, and City Superintendent Geo. T. Luckey.

DUQUESNE.

The Duquesne Public School followed, Mr. George N. Munro, Principal. The pupils wore ribbon badges. A banner of blue and white silk was carried at the head, inscribed with the motto: Public Education Fosters Patriotism." A handsome silk flag was carried in the ranks.

GRANT.

Next was Grant District, two hundred and fifty strong, Principal S. Stevenson. Two handsome silk flags were carried in the ranks, and a beautiful silk banner, inscribed, "Education the Nations' Safeguard."

FORBES DISTRICT.

The turn-out from the Forbes district (Sixth ward) was the largest in the procession, although an absence of some of the many teachers, belonging to those schools was remarked. There were four hundred girls and boys in line from this ward, and they presented a very neat appearance. The Directors had provided a very fine badge of silk ribbon, upon which were printed in gold letters the words: "Forbes District—High School Dedication, October 13th, 1871." In the centre of the badge was a gilt star. The Directors headed the procession, each wearing a badge and white gloves. The children were very tidy, and the varied colors, ribbons and dresses of the little girls, attracted unusual attention. Besides a number of small flags, a banner of blue and white silk was carried in the procession. The blue side bore the inscription; "Forbes District," and the reverse, "Universal Education is the Nation's Strength." The Principal, Prof. L. H. Eaton, than whom there is no more experienced educator in the city, marshaled the procession and looked to the order and care of the participants. He deserves credit for the success of the affair as far as his schools are concerned. Before proceeding to their appointed place (Third avenue) the Forbes procession passed through several streets of their own ward, and, as everywhere, were received with expressions of approbation. Returning after the long tramp to and through the High School building, the children were massed in the school yard and addressed by each of the Directors and the Principal, who thanked the pupils for their attention, good order and neatness. All the speakers were given three cheers by the children. Each participant was presented with the badge worn on the occasion, for preservation as a memento of the occasion.

HOWARD

District followed, numbering two hundred and twenty-five scholars, one hundred and twenty for the Liberty street division under D. K. Brubaker, and Bloomfield division one hundred and five, under Principal W. Joyce. The Masonic Brass Band headed this school, followed by the Directors of the District.

The pupils wore red badges and carried a banner inscribed "Knowledge is Power."

LAWRENCE

District was next, the Grammar and Intermediate departments participating. The former numbered eighty and the latter two hundred. Principal H. O. Gibbons was in charge. A banner of blue and white silk was carried inscribed, "We Will Try to Excel."

LINCOLN

was next, under charge of Principal L. P. Greaves. The pupils numbered one hundred and fifty. A blue and white silk banner was carried, inscribed "Wisdom is better than gold."

MILLER.

The Miller street (colored) school came next, the pupils numbering one hundred, Principal D. W. Atwood in charge. A blue and crimson banner was carried. Stanley's City Band headed the division. The pupils were all neatly dressed, and preserved the most perfect order throughout the line of march.

MOORHEAD

District came next, E. M. Sill, Principal. The pupils numbered one hundred and eighty. A handsome flag with a wreath was carried in the ranks, and a beautiful silk banner, inscribed "Education, Fidelity and Virtue." The pupils all wore badges, and marched excellently.

NORTH SUB-DIVISION.

followed, J. M. Logan, Principal. The pupils numbered one hundred and fifty. There were two large banners inscribed "Excelsior," "God Our Shield," "Our Motto—Union." The Union Cornet Band headed the division. The pupils marched in couples, boys and girls alternately, the boys carrying little flags and the girls bouquets.

THE MUTE SCHOOL

was next in line, Mr. W. A. Woodside, Principal. The pupils numbered twenty-eight. A banner of blue and red silk was carried in the ranks.

PEEBLES

was next in the line, numbering seventy pupils, under charge of Principal T. N. Douglass. There was no banner to mark this division, but the appearance of the pupils was very fine.

MINERSVILLE.

This district came next in line. Mr. James L. Harrison, Principal. The pupils numbered one hundred and sixty. Boy Marshals, with red sashes kept order in the ranks. A banner with the inscription "Mind Moves Matter," was carried. The pupils marched in couples, boys and girls alternately. The boys were decorated with handsome wreaths, and the girls carried boquets. St. Bridget's Silver Cornet Band headed the division.

OAKLAND

followed, in two sub-divisions, Soho and Bellefield, the former in charge of Principal J. P. Andrews, the latter of Principal C. A. Chamberlain. Soho numbered two hundred and thirty pupils, Bellefield seventy. The pupils wore yellow badges, headed with blue and white rosettes. A Marshal and six Captains had been selected from the boys, and did well. The Iron City Band headed the line, and a blue and white banner, inscribed "An Education is our Birthright," was carried, as well as a handsome flag.

RALSTON.

Ralston Public School was next, A. Burtt, Principal, in charge of fifty pupils. He was assisted by all the teachers of the school. The Independent Silver Cornet Band headed the division. The pupils wore blue badges and silver stars, and carried a flag and a blue and white banner, inscribed "Mind is the Measure of the Man."

O'HARA

followed, H. G. Squiers, Principal, accompanied by eight teachers. The pupils numbered one hundred and eighty-five. A large banner was carried, bearing the inscriptions, "Promptness and Perseverence lead to Temperance and Prosperity," "Idleness and Intemperance lead to Indigence and Iniquity." The pupils wore red badges. The boys carried wreaths, and the girls boquets.

SPRINGFIELD.

The Springfield District followed, Mr. W. R. Ford, Principal. There were one hundred and eighty scholars. The Lafayette Cornet Band accompanied the division. A banner, with the inscription, "The End Crowns the Work," was carried, and the pupils carried wreaths and boquets.

SOUTH.

The South (old Second) District came next, 200 strong, Principal, J. M. Pryor, in charge. Two flags were carried, and a banner of blue and crimson silk, inscribed "Hail, Holy Light."

WASHINGTON.

was next in line. Mr. Robert Kelley, Principal, in charge of four hundred pupils. The pupils went in couples, boys and girls alternately, and all wore badges. A blue and white silk banner was carried, and on it was the motto, "The Common Schools the Hope of the Nation."

THE HIGH SCHOOL.

The Faculty and pupils of the High School closed the procession. The Faculty marched first, followed by two hundred and seventy pupils. A banner was carried bearing the inscription, "The People's College." The Washington Cornet Band headed the line.

INTER MUROS.

Arrived at the High School, the police formed two lines guarding the entrance and the long procession passed into the building, those in front entering it before the rear of the procession had yet moved. Passing up, on the left to the third story of the building, each pupil having an opportunity to obtain a view of all the nicely fitted up apartments and to take a hasty survey of all the arrangements that had been made for the comfort of the occupants, they passed down at the right and

OUTSIDE THE BUILDING,

where it was intended that several addresses to the children should be given. The turn out, however, was so much larger than was anticipated, and the march so fatiguing upon the children that it was decided to dispense with the speeches. Accordingly as the children passed out of the Bedford avenue door of the building they continued in line, and passed out at the lower gate. After marching down Bedford avenue about a block, each sub-district was dismissed from line, and proceeded to their respective school houses, under the charge of the Principal of the district.

THE AFTERNOON'S EXERCISES.

As early as half past twelve o'clock the children and parents began to assemble in the spacious hall of the new building and long before the hour appointed for the exercises of the afternoon the room was filed to overflowing. The school-children occupied the galleries in such number that every foot of available room in this part of the building was occupied.

At half past two o'clock City Superintendent Luckey called the meeting to order, after which Mr. Wilson, Chairman of the Central Board, took the chair and presided over the meeting in an able manner. The exercises were introduced with prayer by Rev. Mr. Montgomery, and the singing of a beautiful vocal gem by the Allegheny Quartette Club. Mr. Wilson then introduced

PROF. ANDREW BURTT,

who in a few happy remarks referred to the purpose for which they had assembled, and paid a handsome tribute to the Central Board of Education, through whose efforts the magnificent building in which they were now assembled, had been erected; he briefly noted the opposition that had to be overcome before the work could be undertaken, the insufficient provision made for this purpose previous to the erection of this structure, and spoke at length with regard to the necessity and character of the educational work. He then pronounced the institution, in the name of the spirit of the 19th century, dedicated to the purposes of education.

After another beautiful song by the quartette, Mr. Wilson introduced

W. D. MOORE, ESQ.,

who congratulated his hearers, the representative people of Pittsburgh, upon a finished work which, in its inception and completion, as well as the beneficent results that would flow from it hereafter, is one of the noblest of the age. He congratulated the gentlemen of the Board, that in spite of public and private opposition, they had been enabled to carry out the enterprise, and the children, that this beautiful place had been prepared for them. To the teachers he spoke of the responsibility resting upon them. A nobler work God gives to no man on earth.

The Quartette Club then favored the audience with another delicious melody, after which

DR. B. C. JILLSON,

The newly elected principal of the High School was introduced.

Said he: As an educator, I can heartily rejoice at the rapid strides that have been made in educational matters in this city during the past few years. He referred to the adverse circumstances under which the school had been conducted in the old buildings on Smithfield and Wood streets, and then to the splendidly arraying structure which had been thrown open for inspection to-day. The people of Pittsburgh expect great things of this institution, and he, for one felt the great responsibility placed upon him, and was sure that his colleagues felt similarly.

DR. COVERT

of Lawrenceville a former member of the Board next addressed the audience referring to the work that had to be done before the foundations of this building were laid.

REV. JOHN S. SANDS.

Made a few happy remarks referring to his school days, school friends and school incidents. His address was replete with happy illustrations that were received with marked favor by the children, while the practical advice which he gave them was of the most excellent character.

The Quartette and the audience then sang "America" and the afternoon exercises concluded.

The Evening Exercises.

If the attendance in the afternoon was large, the audience in the evening was perfectly overwhelming, a motley assemblage of men, women and children gathering and taking their places in the hall at least an hour earlier than the time announced for the evening meeting (seven and a half o'clock.)

Mr. T. J. Craig presided over the meeting, the exercises of which were introduced by the singing of an appropriate piece of music by the Quartette Club.

HON. H. B. SWOOPE

was then introduced, who, notwithstanding his feeble condition, resulting from recent severe illness, the effect of which was painfully noticeable in his personal appearance, delivered an eloquent and stirring address. At the outset he apostrophized in glowing terms the magnificent temple, in the dedication of which to the purpose of education, he had come here to assist, as well as those who had been instrumental in bringing about its construction. A portion of his speech was especially directed to the children and he cited a number of illustrations of great men who had no educational advantages to compare with those presented now to Pittsburgh youth. Such men as these were Henry Clay, Geo. Stephenson and Hugh Miller, each of whom were reared in the midst of circumstances the most unpropitious, which the speaker described in his usual vein of eloquence. He referred to the fact that the school was literally high, overlooking our forges and workshops, and might be said to be figurative of the truth that the work of the mind was over and above that of the hand.

After another song by the quartette an address was delivered by

HON. J. P. WICKERSHAM

the very efficient State Superintendent; of Common Schools, who had taken part in the exercises of laying the corner stone of the institution, and had carried away upon that occasion a bright picture, in Memory's gallery of the scenes of that day. Since then he had passed through Pittsburgh many times, but never without casting a glance in this direction to see how the new school was progressing. He then referred to the old High School on Smithfield street, and again on Wood street, and then to this, the erection of which, he said, in the face of the opposition at first encountered, was a proud victory for the friends of education here. All honor to the Board, all honor to the people of Pittsburgh for this building; a structure which has not it peer among the free school institutions of the Commonwealth. The speaker then glanced at the school work elsewhere, at the system of the State and of other States, and took occasion to say that our public schools are impartial, and must be opened to all the people's children, *white* or *black*. It gave him unfeigned pleasure to see the colored children in the procession to-day. He said many other good things, but space forbids us to present them to our readers.

A most amusing song by the Quartette Club was encored to the echo and in response repeated by the singers.

OTHER INTERESTING ADDRESSES

were delivered by J. H. Miller, Esq., a former member of the Board, City Superintendent Luckey and Dr. Collyer, President of the State Agricultural College, but owing to the crowded state of our columns we are unable to present even a synopsis of these.

The exercises of dedication were closed by the singing of the popular and pathetic ballad "Twenty Years Ago," and of the Doxology, in which the entire audience joined.

THE COURTS.

Yesterday's Proceedings.

CRIMINAL COURT—JUDGE STERRETT.

In the case of Charles F. Fauger, tried on an indictment for larceny, W. E. Buck prosecutor, the jury returned a verdict of not guilty.

John Gerger was placed on trial for selling liquor without license, was tried, the jury finding him not guilty, and directing that W. A. Golden, the informer, pay the costs.

Flag Presentation.

During the parade of the children, yesterday on Fifth avenue, when near the Postoffice, the Howard Sub-district School was commanded to stop for a moment, when Mr. Roland H. Smith presented the school with a beautiful silk flag. This was a happy surprise, and created quite a stir among the pupils. We had not time to express our thanks to the kind donor, as the column was marching, but do so now, hoping that the flag will be long kept as a reminiscence of the cheerful giver, and that he may see the common schools reach the highest state of perfection attainable. PRINCIPAL.

Don't Miss the Opportunity

Of calling at Evans' Department Store and seeing the new goods just received. Jewelry and fancy goods selling at half price.

"It Serves Him Right."

"If he can't take a joke," Evans of the Department Store notoriety, has been selling goods so cheap that he finds himself "over head and ears" in business, supplying the country dealers, who find it for their interest to deal with him, in preference to going east. Evans has an immense stock of jewelry and Fancy Goods to select from, 5th avenue, Masonic Hall building.

Special Notice to Gentlemen.

I am just in receipt of a magnificent stock of gents' Canton flannel shirts and drawers. These goods are manufactured in a superior manner, to which I invite the attention of my patrons and the public generally.

BREVITIES.

THE Pittsburgh Gymnasium will be re-opened to-night in Duquesne Hall, Fourth avenue.

THE High School when illuminated last evening presented a very pretty appearance.

COUNCILS will meet to-day to consider the ordinance for appropriating $100,000 to the Relief Fund.

THE German Fire Insurance Company has donated by vote of the directors $1,0.0 to the Relief Fund.

DON'T FORGET your pocket when you go to Church to-morrow. All the churches will take up collections for the Chicago sufferers.

THE Rev. J. Vannotte will preach in the North avenue M. E. Church, to-morrow morning at the usual hour of service, and Rev. J. Knox in the evening.

LAST evening a "Teacher's Tea Meeting" was held in the North avenue M. E. Church, Allegheny. It was well attended, and proved one of the most enjoyable ever held there.

AS THE procession of the children of the public schools passed the well known house of Loh, Son & Co., on Liberty street, yesterday morning, the gentlemen of that firm, with commendable generosity and consideration, gave each child a rosy red apple. When the number in line is considered the gift is no trifling one.

A. C. CASSELBERRY resigned his position as Treasurer of the Improvement Trust Company, 75 Fourth avenue. Mr. Benj. C. Parke, formerly Assistant Treasurer, has been elected Treasurer. Mr. Parke was for a long time the secretary and *active business man* of the Real Estate Savings Bank, and in every respect a first-class bank officer.

THE Committee on the Gray case, when they first went out stood Rev. Dr. Miller and Rev. Mr. Shirer, for conviction, Rev. Messrs. Pugh and Hamilton, for acquittal, and Rev. Mr. Leonard in favor of a vote of censure. It is claimed by the prosecution that under the verdict the case necessarily goes to conference, and by the defense that it does not. At all events it will be before conference, and notification of this intention on the part of the complainants has been served upon Dr. Dempsey and Mr. Gray.

AMONG THE CHURCHES.

Personal and Otherwise.

THE Rev. J. H. McCandless, of Pittsburgh, will officiate in St. John's Church Franklin, to-morrow.

REV. J. A. SNODGRASS, of Pittsburgh, will preach in the Baptist Church at Little Washington to-morrow.

THE lady managers of the Home Mission work of the M. E. Church will have a tea meeting in Liberty Street Church next Thursday evening the 19th inst: to which all are invited and will be made welcome.

REV. JNO. A. GRAY will occupy his former pulpit in Christ M. E. Church to-morrow morning. He has also been invited to preach at the Liberty Street Church in the evening, and has consented to do so.

REV. VAN DE MARK, speaks to-morrow morning on the Desolate City. In the evening he will give the third lecture of the Fable series, subject, "The Dog in the Manger." Collections for the Chicago Relief Fund will be made both A. M. and P. M.

THE Pittsburgh Synod of the Ev. Lutheran Church will convene in North Washington, on Thursday the 19th of October at nine o'clock A. M., and will continue over Sabbath. There will be discourses delivered every evening during its session. On Sabbath, Communion Services at 10½ o'clock. On Sabbath evening, Ordination Services.

A "PASTOR'S and Superintendent's Sociable"—a conference of Sunday School workers was held in Christ M. E. Church Thurday evening. The programme consisted of general Social greetings from six to six and a half o'clock, when the company sat down to an elegant supper, following which came addresses from Rev. S. F. Scovel, Rev. Geo. A. Petty of Philadelphia, Rev. W. F. Wylie, and others. The affair was under the supervision of the Allegheny County Sabbath School Teacher's Association, and proved as enjoyable as the exercises were instructive.

Prince Albert.

A beautiful quality of Black Alpaca, imported by a leading Philadelphia house, and bearing the above name, is worthy the attention of our lady readers, and all who purchase this desirable and cheap fabric for dresses and suits. They have already become widely popular in the East, and we believe them superior to any other make of Alpaca. The main point of excellence is their beautiful shade and texture, and, being finished so perfectly on both sides, they admit of being turned after long service, without loss of color or freshness. Our attention was drawn to these goods at Messrs. J. B. HEARD & CO'S., who are introducing them in this market. We were shown very pretty qualities at thirty to fifty cents. WFS.

The Verdict of the People

is universal in favor of the system adopted by D. W. Evans for insuring the rapid sale of useful goods at low prices. Call at the great Department Store, 59 Fifth avenue, and you will be sure to see something to please you.

Seeing is Believing.—If ladies who no not use the fragrant SOZODONT will compare teeth with those who do, they will see in an instant more reasons for adopting it, than can be compressed into a newspaper paragraph. TS
